EDITORIAL PRACTICE

All entries are given in calendar form. In the original register, a typical institution entry reads:

Johannes dictus le Warde de Baston' clericus presentatus per Abbatem et Conventum Croyland' ad ecclesiam de Beeby Lincoln' diocese vacantem per mortem domini Rogeri de Assherugg' ultimi rectoris eiusdem facta prius inquisitione per Officiale Archidiaconi Leyc' per quam etc ad dictam ecclesiam est admisisus quarto Nonas Junii anno domini millesimo cccc' tricesimo quinto apud Ebor' et rector canonice institutus in eadem Jurataque episcopo canonica obedientia in forma consueta Scriptum est dicto Officiali quod etc. (Reg 4 fo 143)

Such entries have been calendared in a standard form:

For the longer entries, such as the ordinations of vicarages and chantries, an attempt has been made to include in the English summary all of the more important information, but some minor details have been omitted.

Place-names have been modernised. Peerage titles are given in the form used by the Complete Peerage. Surnames for which a standard Latin form is used in the register have been translated into their Anglo-French equivalents (Beaumont for Bello Monte, Beauchamp for Bello Campo); otherwise, all surnames are given in the same form as in the manuscript.

The historical year, beginning on 1 January, has been used throughout.
