List of Illustrations

Presented in 4 sections with continuous numbering.

Published material has been photocopied; antiquarian sketches have been reproduced by one of four ways: 1) photocopying an existing photocopy of the manuscript, as in Torre's case; 2) photocopying the printed text, as in Drake's case; 3) photocopying the printout from an existing microfilm of the manuscript, as in Johnston's case; 4) photocopying photographs from the manuscript, as in Glover's and Dugdale's case. For the sake of acknowledging the provenance of manuscript illustrations, all the relevant plates carry the full catalogue entry, together with the name of the antiquarian author. The illustrations from Torre's manuscript are reproduced with the kind permission of the Dean and Chapter of York.

Section I: Map of medieval York with parish boundaries, parish churches and other significant landmarks
