## Chapter 1: Introduction

1.1 Malaysia: Location and Demographics

1.2 A Brief Explanation of Ethnic Diversity in Malaysia

1.2.1 Malay women in Malaysian context

1.3 Recreational Forest in a Malaysian Context

1.4 Definition of Terms

1.5 The Forest Recreation Concept

1.6 Policies Related to Malaysian Forests

1.7 An Overview of Forest Benefits

1.8 The Impact of Personal Characteristics on Forest Use

1.9 Research Aims and Importance of Research

1.10 Research Questions

1.11 The Research Design

1.12 Thesis Structure

## Chapter 2: Literature Review

2.1 Physical Activity and Green Space Use

2.2 Human Health and Green Space Use

2.2.1 The biophilia hypothesis

2.2.2 Restoration

2.2.3 Stress recovery concept

2.3 Social Cohesion Concept

2.4 Social Aspects and Green Space Use

2.5 People’s Attitudes to Green Space

2.6 People’s Feelings When Using Green Space

2.7 Recreational Activities and Patterns of Green Space Use

2.7.1 Activities engaged in green space

2.8 The Impact of Personal Differences on People’s Experience

2.8.1 Age

2.8.2 Gender

2.8.3 Cultural background and ethnicity

2.8.4 Education and socioeconomic factors

2.9 Conclusion

## Chapter 3: Methodology

3.1 The Rationale for Using a Mixed methods Approach

3.1.1 The mixed methods approach used in this study

3.2 Ethical and Practical Approach

3.2.1 Informed consent for questionnaire survey

3.2.2 Informed consent for interviews

3.2.3 Recording

3.9 Conclusion
3.2.4 Translation and transcription 57
3.3 Preliminary Data Collection 58
3.4 Questionnaire Pilot Study 62
3.4.1 Drawing the final sample for survey 63
3.5 Questionnaire 63
3.5.1 Self-administered questionnaire 63
3.5.2 Questionnaire items 64
3.5.3 Response rate and questionnaire completion 69
3.5.4 Data analysis 70
3.5.5 Validity and reliability 72
3.6 Semi-structured Interviews 73
3.6.1 Qualitative interviewing rationale 73
3.6.2 Approach to interviewing 74
3.6.3 Obtaining interview sample 74
3.6.4 Analysis stages 76
3.6.5 Validity and reliability 78
3.7 Conclusion 80

Chapter 4: Study Site Descriptions
4.1 Selection of Study Sites in Selangor 81
4.1.1 Factors that contributed to selection of sites 83
4.2 Conclusion 92

Chapter 5: Respondents’ Characteristics and Observation Results
5.1 General Respondent’s Characteristics 93
5.2 Respondent’s Characteristics for each Recreational Forest 95
5.3 Observation Results for Ampang and Kanching Recreational Forests 98
5.3.1 Days of visit by site 99
5.3.2 Gender distributions based on sites 99
5.3.3 Recreational activities observed in the recreational forests 100
5.3.4 Recreational activities and gender 102
5.3.5 Recreational activities and ethnicity 104
5.3.6 Recreational activities and the age of users 105
5.4 Maintenance Issues at Both Sites 106
5.5 Conclusion 108

Chapter 6: Forest Users’ Attitudes and Experiences in the Recreational Forests
6.1 General Patterns of Use of the Recreational Forests 109
6.1.1 Frequency of visits 109
6.1.2 Mode of transport to the recreational forests 110
6.1.3 Length of stay in the recreational forests 111
6.1.4 Time of visit 113
6.1.5 The social preferences of visitors to the recreational forests 115
6.2 Variations in Use between Ampang and Kanching Recreational Forests 117
6.2.1 First or repeat visit at Ampang and Kanching Recreational Forests 117
6.2.2 Frequency of visits to Ampang and Kanching Recreational Forests 117
6.2.3 Frequency of visits to local and non-local visitors to Ampang and Kanching Recreational Forests 118
6.2.4 Mode of transport 119
6.2.5 Length of stay 120
6.3 Forest Amenities that Influence the Use of the Recreational Forests 121
6.3.1 Level of agreement related to forest amenities 122
6.4 Motives for Recreational Forest Use 122
6.5 Feelings Experienced in the Recreational Forests 126
6.6 Personal Characteristics and Other Variables (in both recreational forests) 129
6.6.1 Frequency of visit and personal characteristics 129
6.6.2 Personal characteristics and the social preferences of visitors to the recreational forests 133
6.7 Expectations towards the Recreational Forests 135
6.8 Conclusion 138

Chapter 7: Underlying Patterns in the Questionnaire Data
7.1 Overall Factor Analysis 140
7.2 Choosing the Number of Factors Retained 140
7.3 Reliability Test 148
7.4 Analysis of Variance (ANOVA) 149
7.5 Conclusion 151

Chapter 8: Qualitative Results
8.1 Use and Experience in the Recreational Forest 152
8.1.1 Pattern of recreational use 152
8.1.2 Motives for forest use 156
8.1.3 Feelings experienced in the recreational forest 159
8.2 Value of the Recreational Forest 163
8.2.1 Function of recreational forest 163
8.2.2 Benefits 165
8.3 Forest Culture and Memory Regarding the Environment 167
8.3.1 Human interaction with the forest 167
8.3.2 Cultural memory 170
8.3.3 First exposure related to forest environment 172
8.4 Issues of Concern and Expectations towards the Recreational Forest 173
8.5 Impact of Gender and Ethnicity on the Recreational Forest 178
8.6 Conclusion 192

**Appendices**

Appendix 1: Articles related to the Kanching Recreational Forest 257
Appendix 2: Questionnaire 261
Appendix 3: Semi-structured interviews questions 269
Appendix 4: Participant consent form 270
Appendix 5: Background characteristics and social preferences groups of visit 272
Appendix 6: Factor analysis results 274
**TABLES AND FIGURES**

**Table Contents**

**Chapter 1**
1.1 Comparisons between recreational forests and urban forests in Malaysia 10

**Chapter 3**
3.1 Interviews with forest officers and a manager 60
3.2 Population of forest users during three days observation 62
3.3 Questionnaire structure 64
3.4 Demographic questionnaire items 68
3.5 Respondents were surveyed 70
3.6 Statistical tests used and their functions 71
3.7 Characteristics of interviewees at Ampang and Kanching Recreational Forests 76

**Chapter 4**
4.1 General information about the recreational forests in Selangor 85

**Chapter 5**
5.1 Age group distribution 93
5.2 Gender distribution 94
5.3 Ethnicity distribution 94
5.4 Marital status distribution 94
5.5 Employment status 94
5.6 Educational distribution 95
5.7 Age group and gender distribution (both recreational forests) 96
5.8 Ethnicity distribution (both recreational forests) 96
5.9 Employment status and educational distribution (both recreational forests) 98

**Chapter 6**
6.1 Frequencies of type of visit, childhood visits and residence in a rural area 117
6.2 Relationships between length of stay and motives for forest use 121
6.3 Correlations between frequency of visit and forest amenities items 122
6.4 Motives for recreational forest use 123
6.5 Correlations between frequency of visit and motives for recreational forest use 124
6.6 Gender and forest use motives 124
6.7 Ethnicity and forest use motives 125
6.8 Correlations between motives for recreational forest use and age groups 126
6.9 Items related to feelings while in the recreational forests 127
6.10 Gender and three items related to feelings in the recreational forest 128
6.11 Correlations between feelings in the forest and age groups 128
6.12 Personal characteristics and the social preferences 134
6.13 Rating of expectations (mean across all respondents) 136
6.14 Expectations towards the recreational forests 137
6.15 Correlations between expectations towards the recreational forest and 138
Chapter 7

7.1 Items retained under Factor 1 (“Forest amenities”), loadings ≤ 0.30 not shown
7.2 Items retained under Factor 2 (“Restorative experience”), loadings ≤ 0.30 not shown
7.3 Items retained under Factor 3 (“Inter-generational values”), loadings ≤ 0.30 not shown
7.4 Items retained under Factor 4 (“Self-actualisation”), loadings ≤ 0.30 not shown
7.5 Items retained under Factor 5 (“Incivilities”), loadings ≤ 0.30 not shown
7.6 Items retained under Factor 6 (“Natural threats in the forest”), loadings ≤ 0.30 not shown
7.7 Items retained under Factor 7 (“Younger activity preference”), loadings ≤ 0.30 not shown
7.8 T-test results
7.9 The overall means and standard error of the items loading onto the seven factors
7.10 Reliability results according to Nunally (1978)
7.11 Summary of associations between socio-demographic variables and factor component items
7.12 Factor score “Self actualisation” by frequency of visits

Chapter 9

9.1 Typology of recreational forest users
# Figures

## Chapter 1
1.1 The states and federal territories of Malaysia (indicated in pink)  
1.2 Flowchart of the research framework used in the study  
1.3 Map of Selangor State

## Chapter 3
3.1 The qualitative-quantitative continuum of educational research methodology conceptualised
3.2 Examples of quotations and keywords

## Chapter 4
4.1 Locations of recreational forests in Selangor
4.2 Ampang Recreational Forest site plan
4.3 Kanching Recreational Forest site plan
4.4 Some examples of individual land uses near Ampang Recreational Forest  
(Clockwise from top left: a quarry area, low-cost flats, a scenery of Bukit Belachan, fish ponds)
4.5 Some examples of individual land uses surrounding Kanching Recreational Forest  
(Clockwise from top left: a high school, the entrance to Templer Park’s golf course area with a view of Bukit Takun in the background, high-cost housing areas and high-cost housing constructions)

## Chapter 5
5.1 Observed results for days of visits in the recreational forests
5.2 Observed gender distributions in the recreational forests
5.3 Recreational activities observed in the recreational forests
5.4 Some activities at Ampang Recreational Forest  
(Clockwise from top left: swimming, fishing, playing with a ball and bird watching)
5.5 Some activities at Kanching Recreational Forest  
(Clockwise from top: feeding monkeys, outdoor programmes and jungle trekking)
5.6 Recreational activities based on gender in Ampang Recreational Forest
5.7 Several children cycling in the Ampang Recreational Forest and a man doing volunteering work in Kanching Recreational Forest
5.8 Recreational activities based on gender in Kanching Recreational Forest
5.9 Recreational activities engaged in by ethnic groups in Ampang Recreational Forest
5.10 Recreational activities engaged in by ethnic groups in Kanching Recreational Forest
5.11 Recreational activities engaged in by age groups in Ampang Recreational Forest
5.12 Recreational activities engaged in by age groups in Kanching Recreational Forest
5.13 A few issues in Ampang Recreational Forest  
(Clockwise from top left: poor maintenance play equipment for children, an uncovered manhole poses a danger to forest users, and a concrete rubbish bin located on a walkway)
Some issues occurred in Kanching Recreational Forest (Clockwise from top left: burnt tree stump, monkeys searching for food in the trash, untreated tree trunk and damaged walkway)

Chapter 6

6.1 Frequency of visits to the recreational forests
6.2 Mode of transport to the recreational forests
6.3 Social preferences by mode of transport to the recreational forests
6.4 Length of stay and recreational forest visits
6.5 Duration of recreational forest visits and age of respondents
6.6 Duration of recreational forest visits and ethnicity of respondents
6.7 Time of visit to the recreational forests
6.8 Time of visit to the recreational forests and age of respondents
6.9 Time of visit to the recreational forests and ethnicity of respondents
6.10 Social preferences of visitors to the recreational forests
6.11 Social preferences during recreational forest visits and age of respondents
6.12 Social preferences during recreational forest visits and gender of respondents
6.13 Frequency of visits to the Ampang and Kanching Recreational Forests
6.14 Frequency of visits of locals and non-locals respondents to Ampang and Kanching Recreational Forests
6.15 Modes of transport used to travel to the Ampang and Kanching Recreational Forest
6.16 Length of stay in the Ampang and Kanching Recreational Forests
6.17 The importance of recreational forest amenities by rank
6.18 Frequency of respondents’ recreational forest visits by ethnicity
6.19 Frequency of visits by ethnicity of respondents at Ampang Forest
6.20 Frequency of visits by ethnicity of respondents at Kanching Forest
6.21 Frequency of visits according to age of respondents
6.22 Frequency of visits according to respondents’ age in Ampang Forest
6.23 Frequency of visit by respondents’ employment status in Ampang Forest

Chapter 7

7.1 Scree plot

Chapter 8

8.1 Themes and sub-themes of both recreational forests
