

Electron Gun Barrel

Wann Group, Edinburgh University

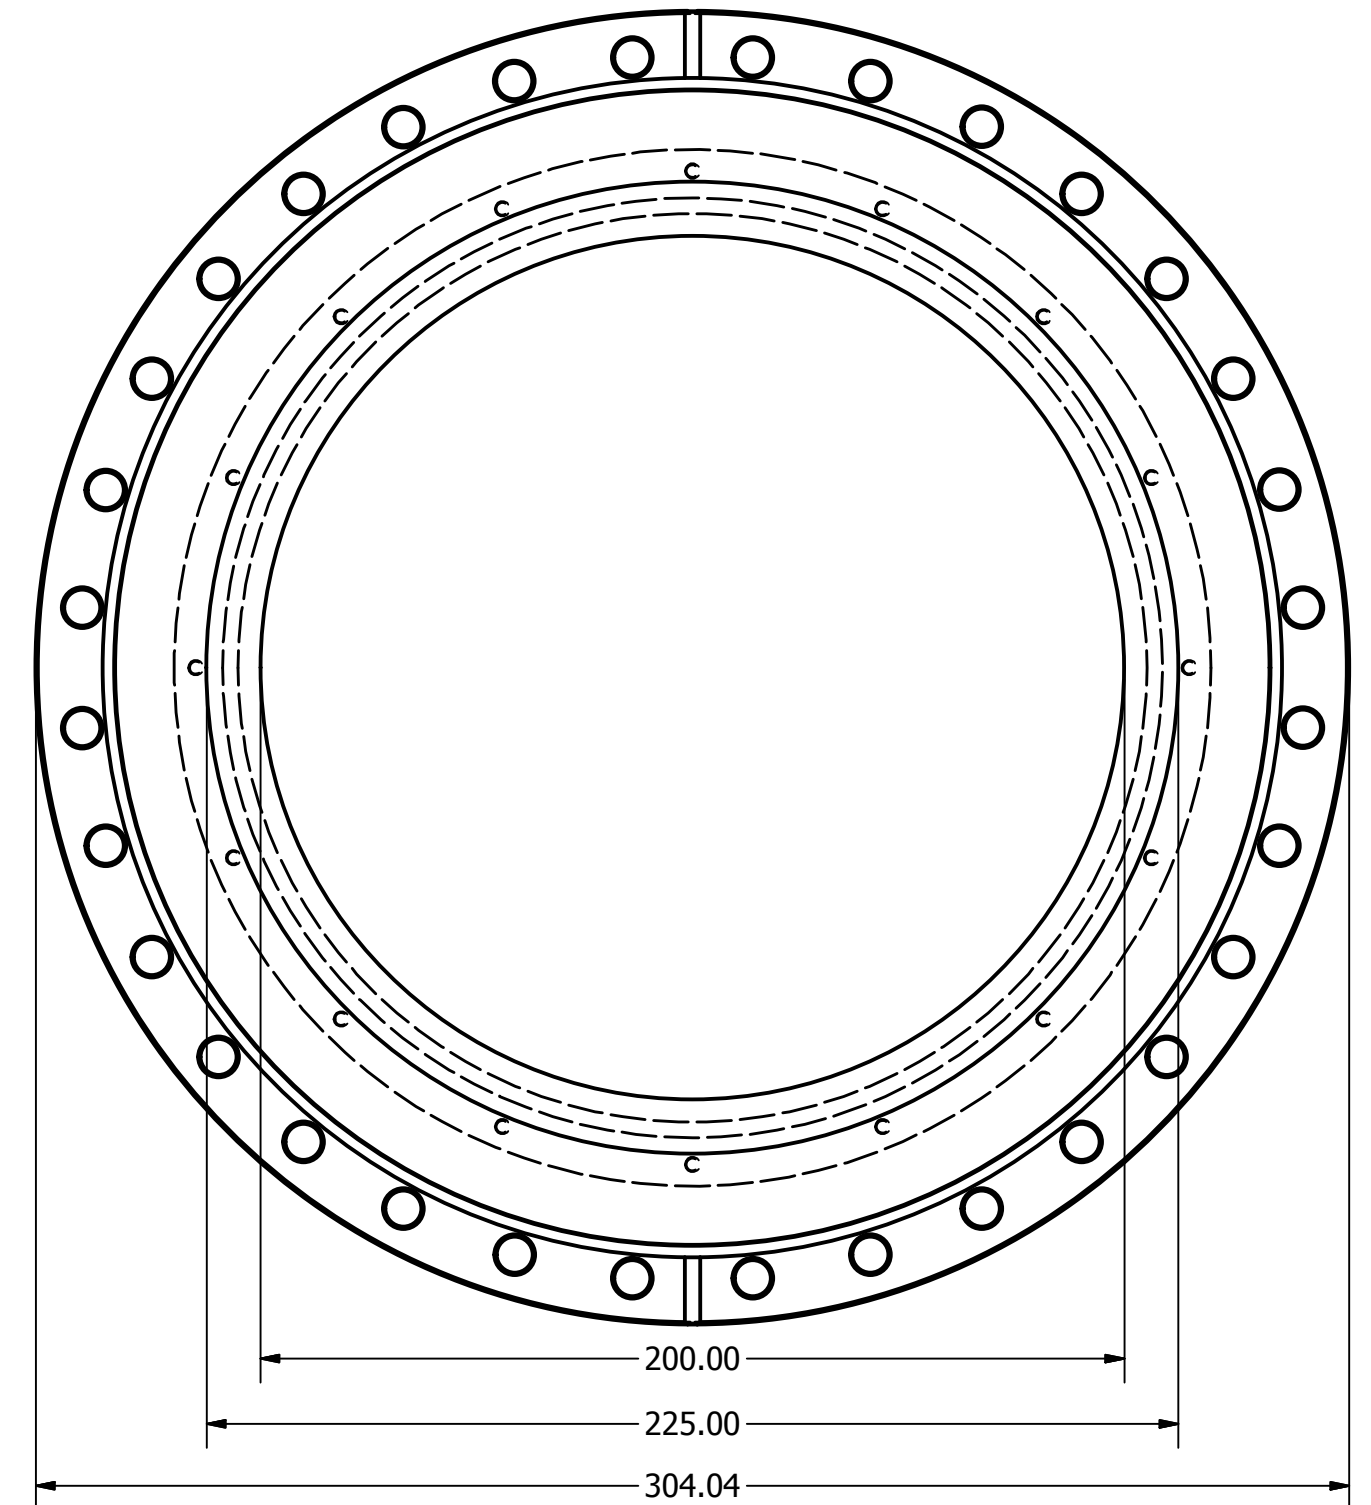

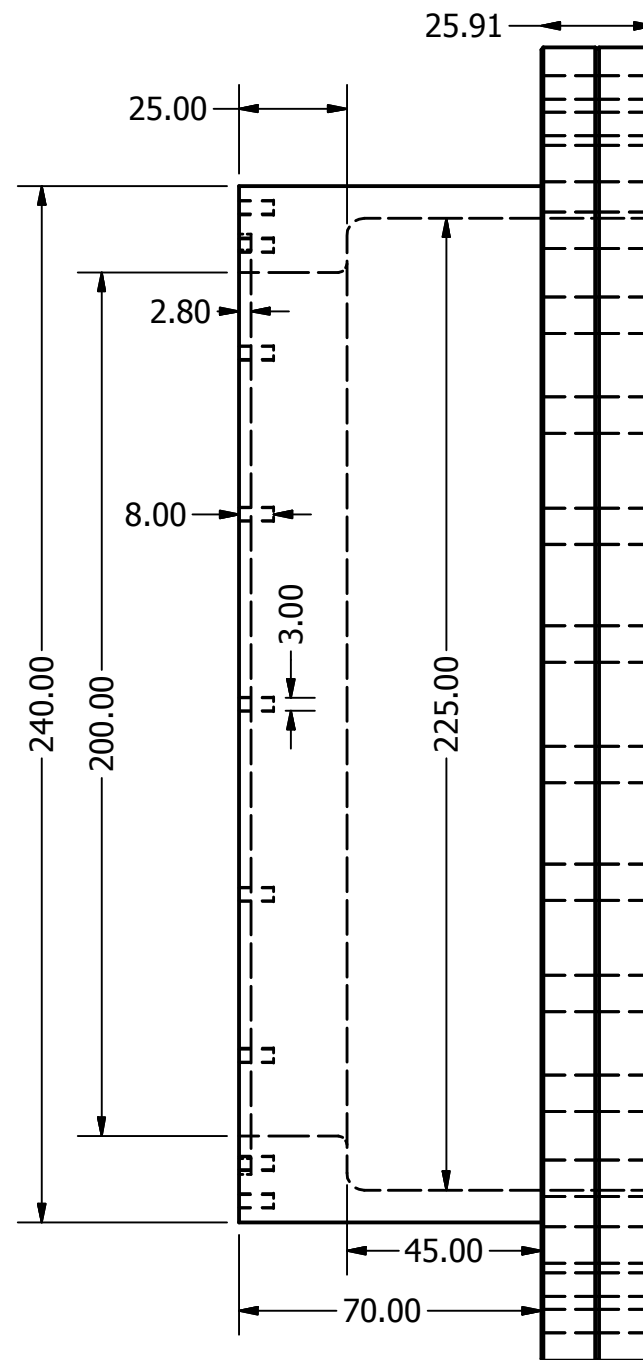

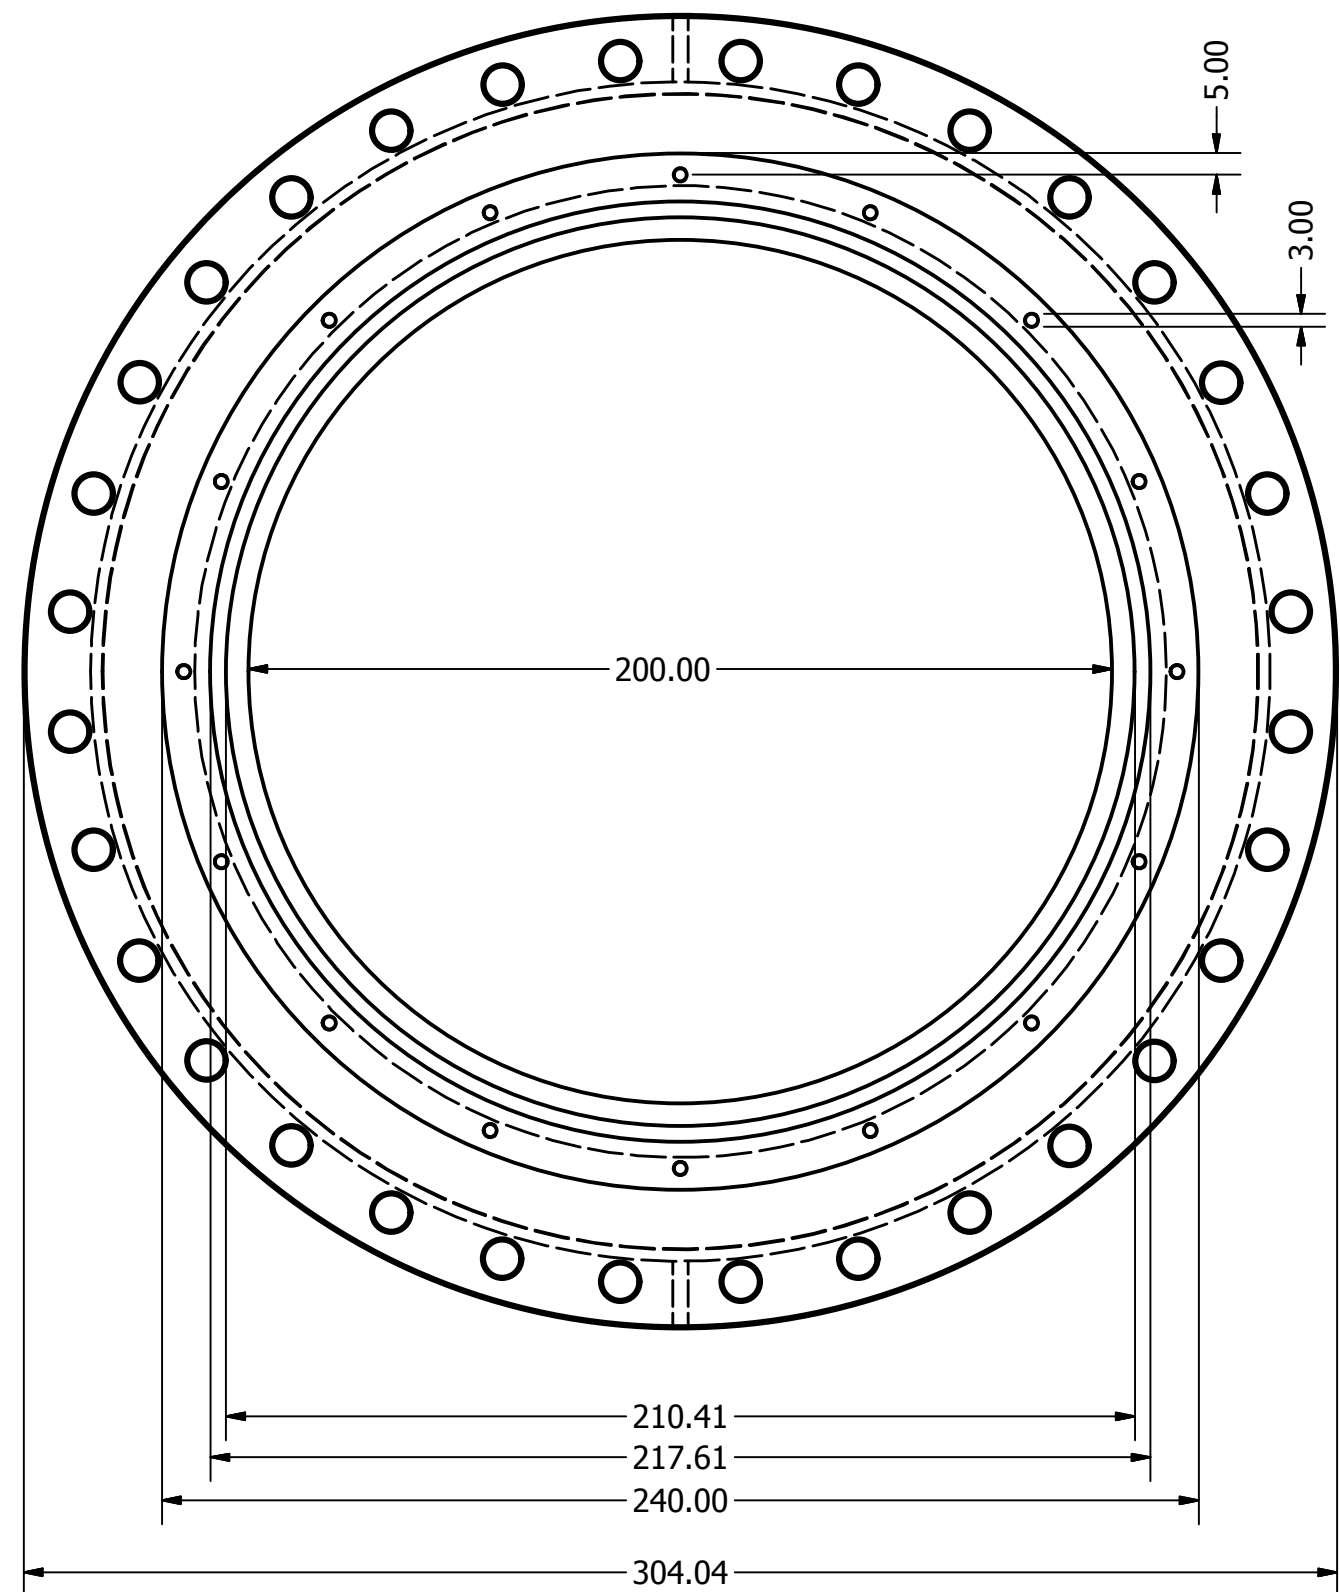

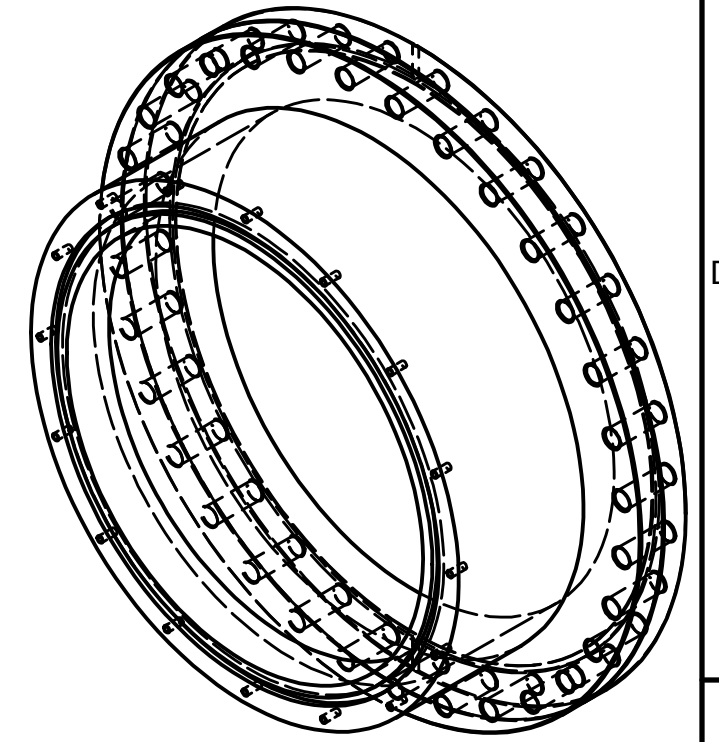

All measurements are in millimeters

Based on a 12" CF double knife-edged Flange

Has sixteen, evenly spaced, 8 mm deep, M3 Screw holes in the end of the Barrel

A circular groove (I.D.= 210.41 mm, O.D. = 217.61 mm, 2.8 mm deep) must be made in the lip of the Barrel for a custom O-ring to placed.

To be made from 316L Stainless Steel
