Concert pitch score
Performance notes

As in most Brazilian styles, the natural accent should be put on the second and fourth semiquavers. In the bass, stress the second beat.

In section H, bars 115 to 116, the pianist should hit the wood with his knuckles while the guitarist hits the plectrum against the pickup. In bars 117 and 118, the pianist uses the palm and the guitarist strums the muted strings.
