Dear Mr Cubitt

**Blofield St Andrew and St Peter  
Internal Re-ordering**

At its meeting on 28<sup>th</sup> June the DAC considered the information you recently submitted.

The Committee noted your responses and comments to the views expressed at the DAC sub-committee meeting on 20<sup>th</sup> March 2012. Members then discussed the matter at length.

The DAC continues to have concerns about the considerable expense of the proposals for the the first floor gallery and the vestry, as members feel that the limited use of these two areas will not provide value for money for the parish. The Committee feels that this is something which the PCC needs to consider very carefully before proceeding. A scaled-down project may be more achievable and at the same time provide all the facilities the church needs.

If you have not already done so, it would be good to consult all the relevant amenity societies on the revised proposals. I would suggest English Heritage, SPAB and the Church Buildings Council at this stage.

I look forward to hearing from you when you are ready to proceed, at which time the Committee will consider any new drawings and/or modifications to the scheme.

Yours sincerely

Jean Gosling  
DAC Secretary
