Dear Paul,

This looks great and I'm sure will be of help to the DAC if they haven't seen it before. Please don't be disheartened by the Council's comments, it's simply that they want to see the best outcome for this scheme and the parish. As with so many projects, unless we see the thinking behind the scheme on paper, its very hard to know what the processes have been in reaching the proposed solution so inevitably we end up asking questions that there is usually a very good answer to.

With very best wishes for the rest of the project, please do let me know when it's all finished and send some pictures!

Dear Jude,

We have done so much work on this - it is hard to know all what is wanted. Here is the outcome matrix - ie how we want to use the building when work is completed.

We now have a funeral next week requiring catering afterwards in church.

Paul

Paul,

Thanks for this which is useful information (and the bacon butties drop in sounds great!). It would be good to see this level of detail included in your Statement of Need as it really strengthens the proposed and existing use of the spaces. We are happy to defer to the DAC now but I think what the Council really wanted to encourage was a robust look at how the proposed new accomodation will function to ensure that the spaces and facilities will work as well as you need them to when completed.

Best wishes,

jude

Dear Jude,

Thank you for your report.

I thought it right to add a little comment about the kitchen, in the knowledge that the DAC meet this week. The PCC have looked at moving the kitchen under the tower in the early stages of discussions but it was felt this was not the best of places for it - one reason was space. The tower vestry is much smaller.

The kitchen, while it does take up space is much used. Soup, rolls and hot puddings were served after our Sunday service for about 40 people. It works overtime for major events over the year. The best part of 200 cream teas were served during Open Gardens. As part of the plan is to see lunch clubs and Alpha type courses the kitchen will be used more often.

Last week I was given a cheque for £15,000. The majority is to go on the heating system, but £2,000 is to be used to start up a weekly breakfast (bacon butties etc)/newspaper/coffee drop in before the 11.00am Sunday service. This very generous and anonymous gift will see the kitchen being used for more than just the coffee and cake after service. The gift is to pay for a year's breakfasts.

It ought to be said that the redesigned kitchen is smaller than the present one as it will incorporate the flower cupboard too. It will also see the servery incorporated within the kitchen space instead of the flatpack table which encroaches into the welcome space.

Thank you again for your comments. I hope this additional information is of help.

Kind regards

Paul Cubitt
 Rector
