

CONSENT FORM

Effects Of Testosterone Levels On Mortality And Cardiovascular Risk In Men With Type 2

Diabetes

Project Chief Investigator: Professor T Hugh Jones

1. I confirm that I have read and understand the information sheet dated 10th of October and have had opportunity to ask questions.

2. I understand that my participation is voluntary and that I am free to withdraw at any time, without giving any reason, without my medical care or legal rights being affected.

3. I understand that sections of medical notes may be looked at by responsible individuals involved with research at Barnsley Hospital NHS Foundation Trust where it is relevant to my taking part in the research. I give permission for these individuals to have access to my records.

4. I agree to blood samples being kept for future tests into the role of testosterone in diabetes or cardiovascular (circulation) disease.

5. I agree to take part in this study.
