1. Neolithic as a Whole – Pathologies

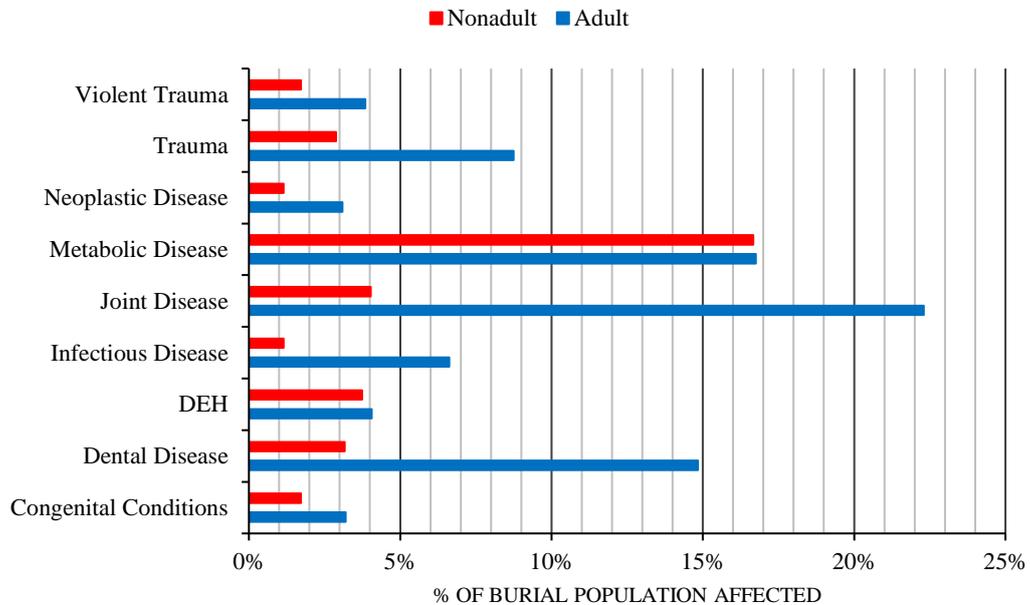

Rates of Pathologies for Males and Females in the Neolithic (N=1291)

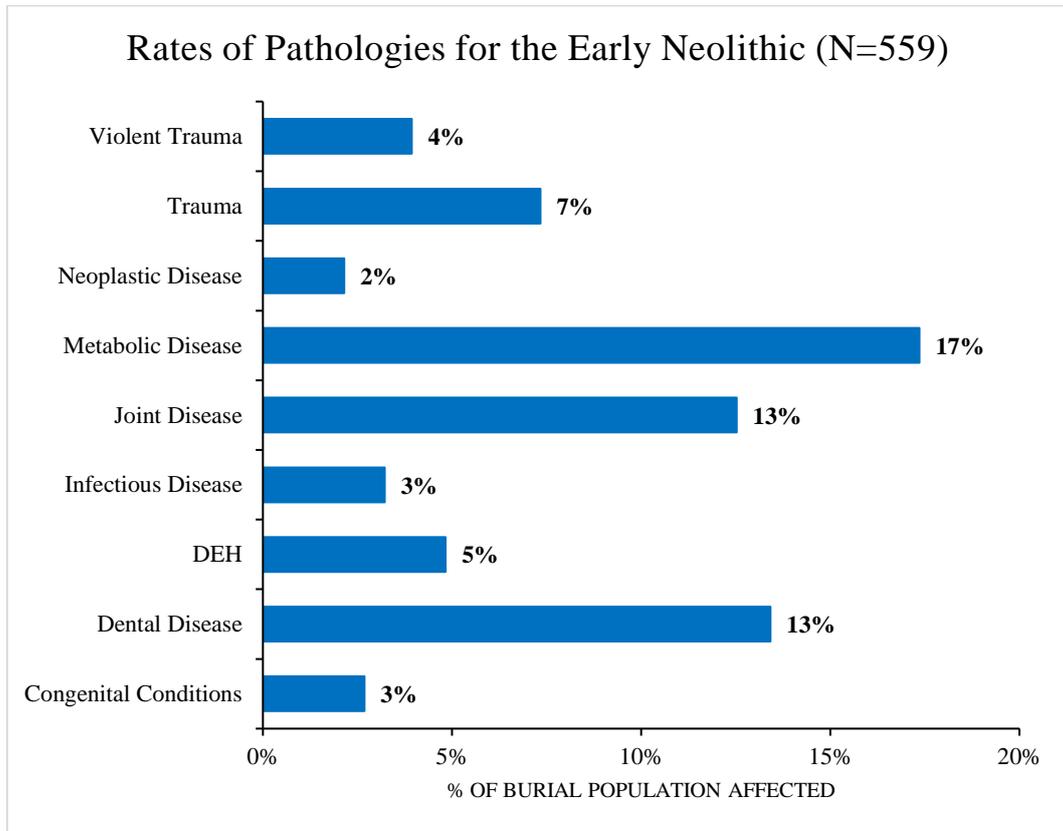

Rates of Pathologies for Males and Females in the Neolithic (No Undetermined) (N=572)

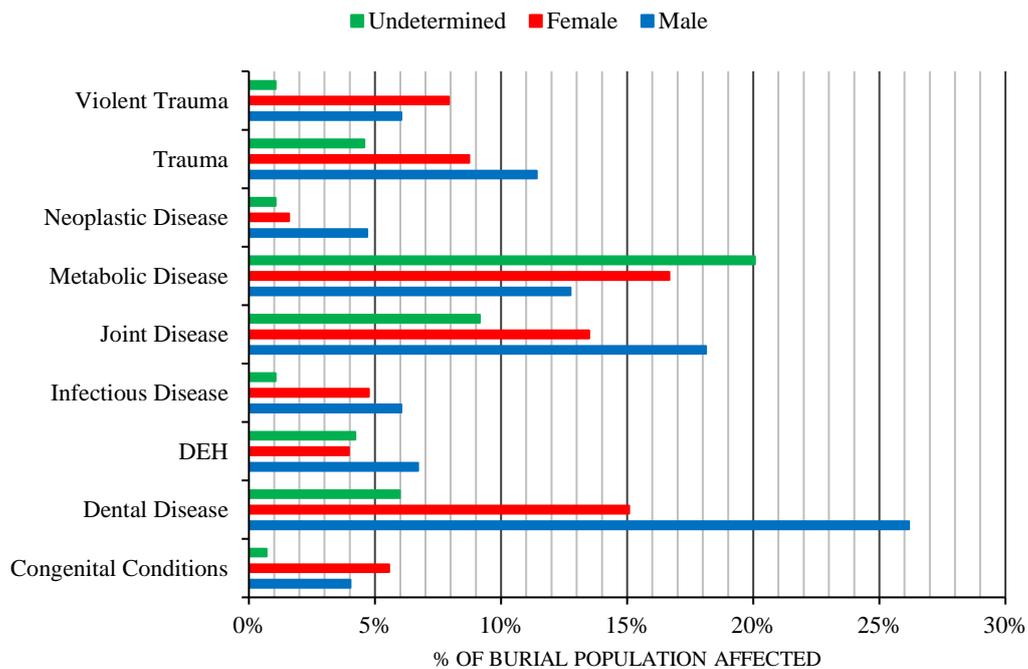

Rates of Pathologies for Adults and Nonadults in the Neolithic (N=1285)

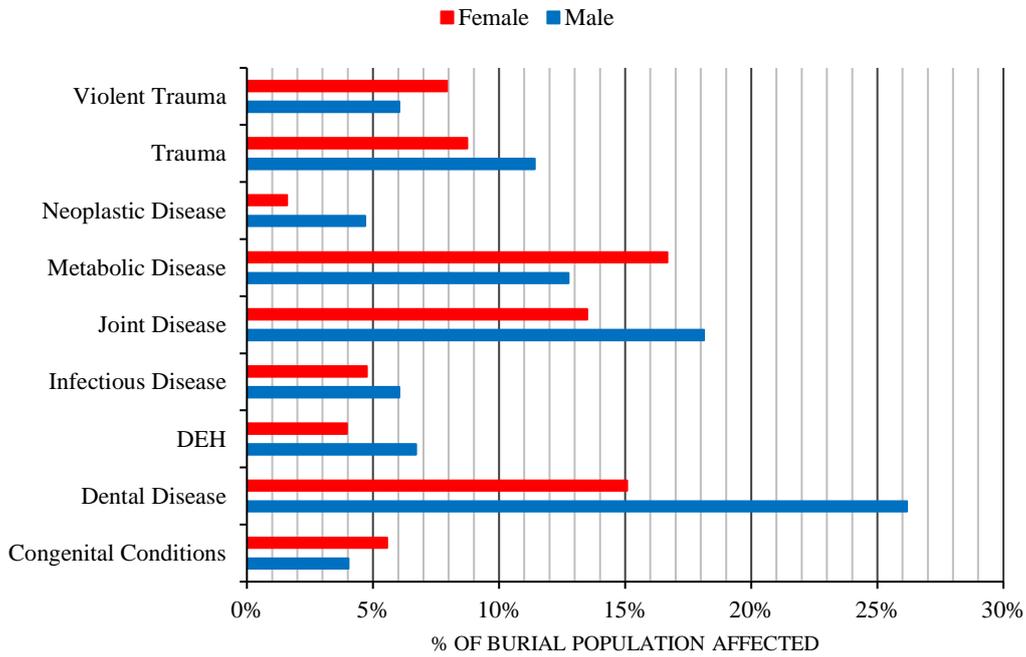

2. Chronological Stages – Pathologies

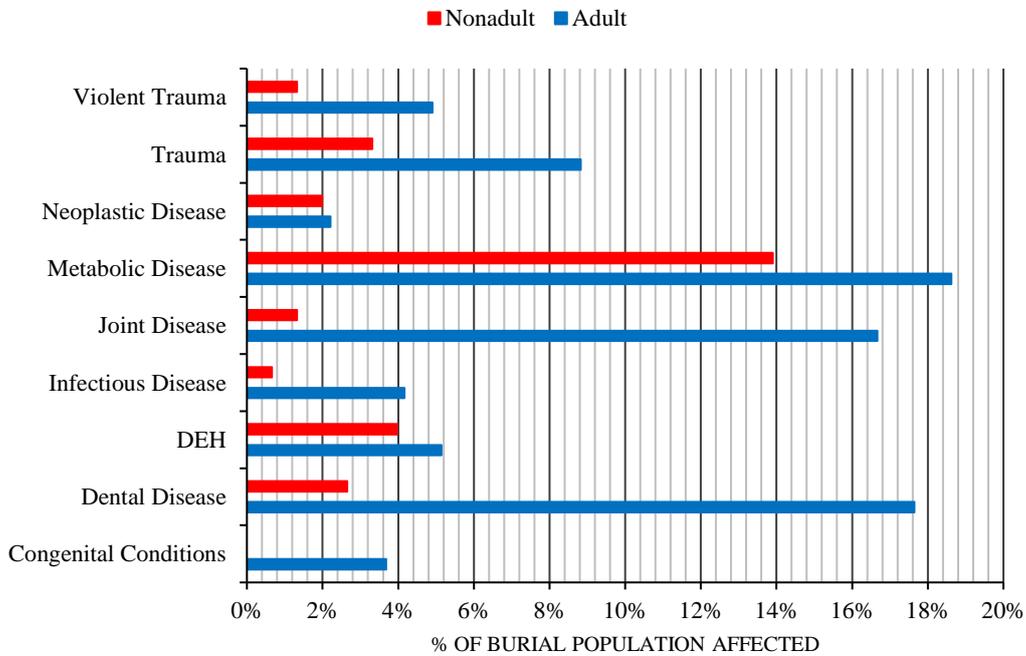

Rates of Pathologies for Males and Females in the Early Neolithic (N=559)

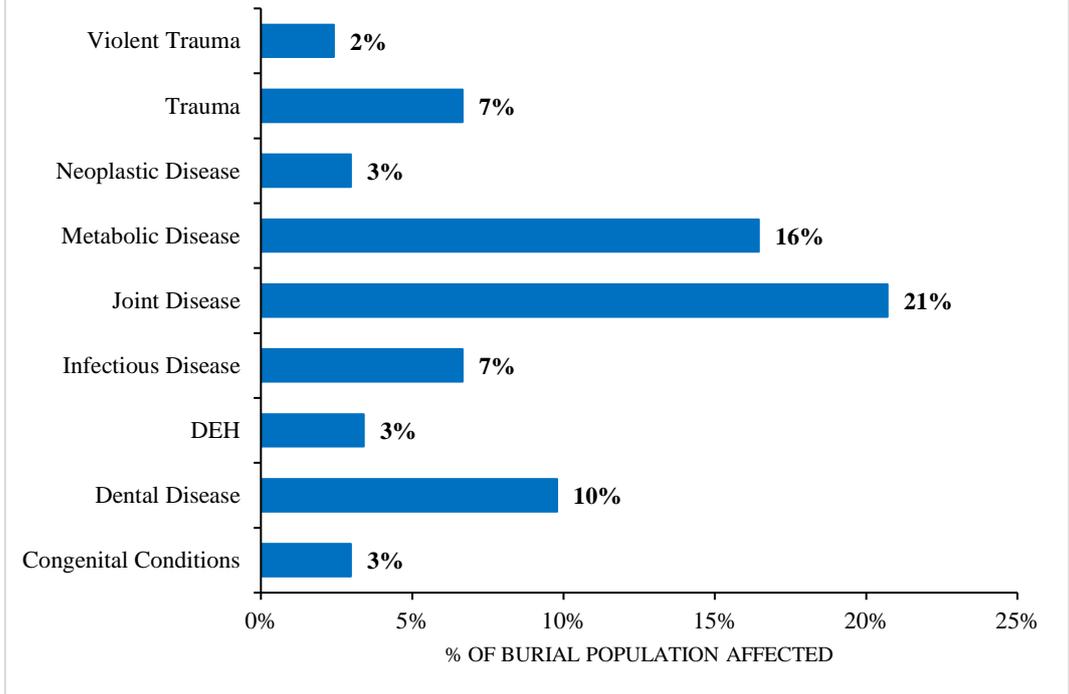

Rates of Pathologies for Males and Females in the Early Neolithic (No Undetermined) (N=275)

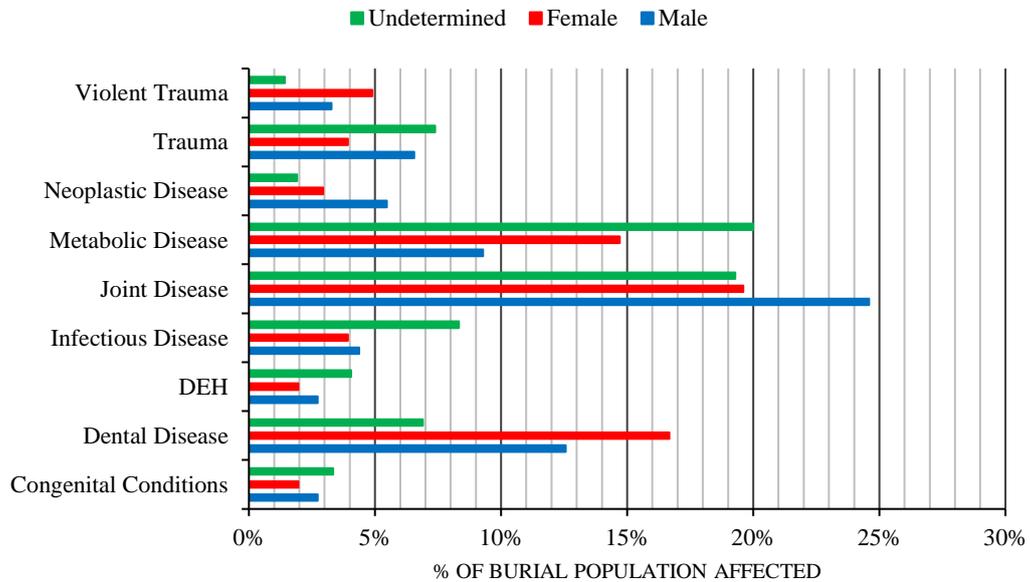

Rates of Pathologies for Adults and Nonadults in the Early Neolithic (N=559)

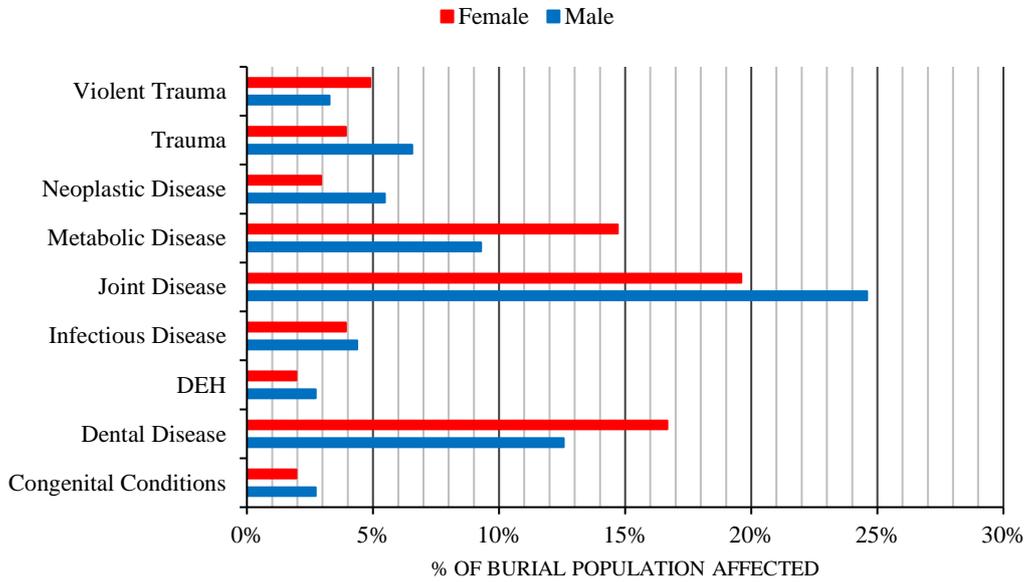

Rates of Pathologies for the Middle Neolithic (N=705)

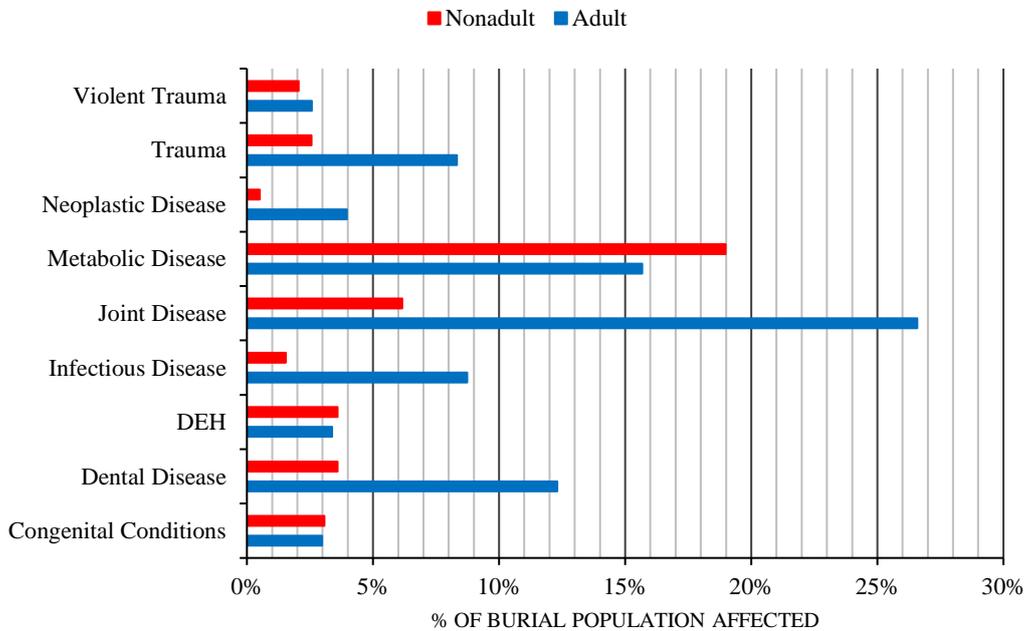

Rates of Pathologies between Males and Females in the Middle Neolithic (N=705)

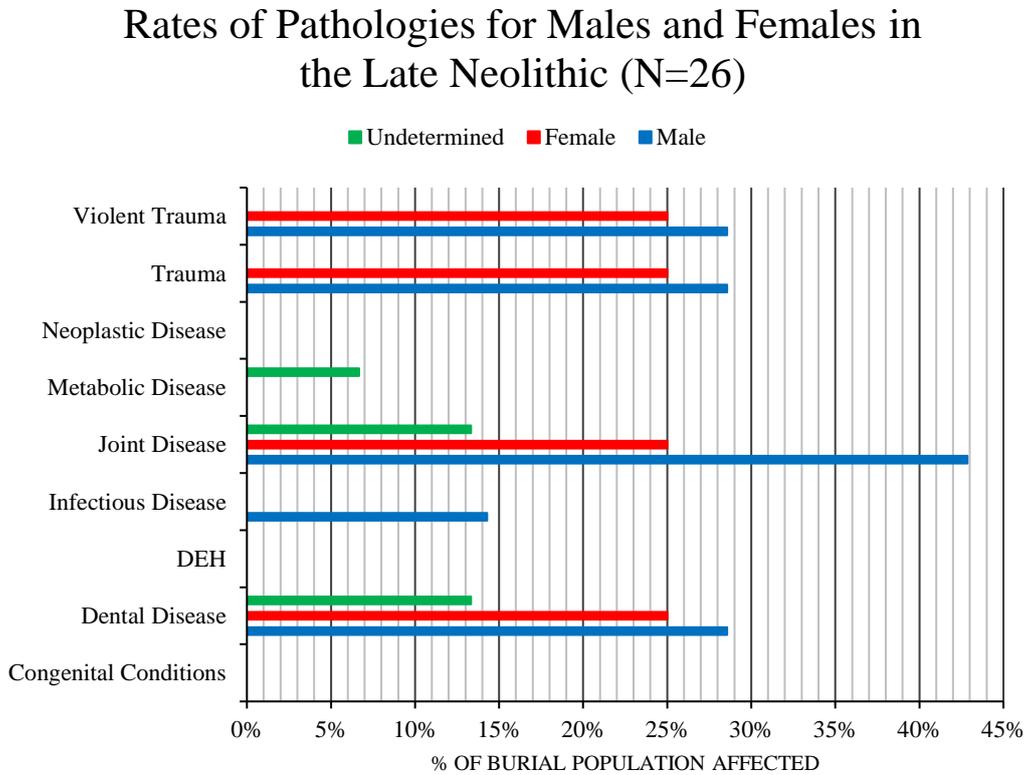

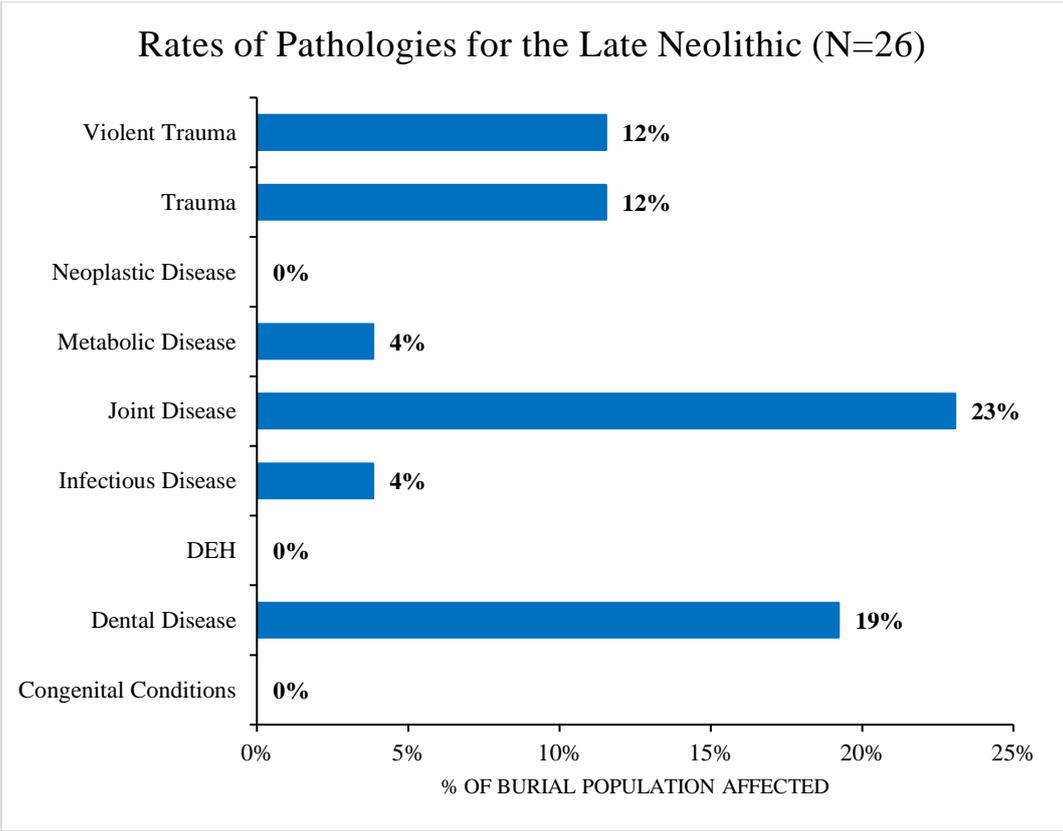

Rates of Pathologies between Males and Females in the Middle Neolithic (No Undetermined) (N=285)

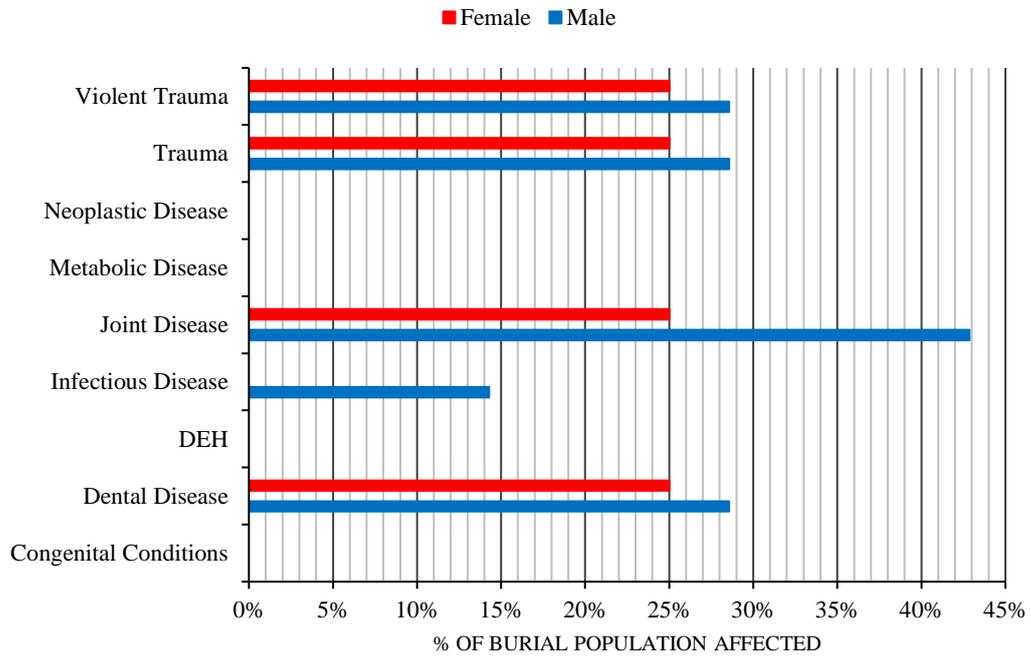

Rates of Pathologies for Adults and Nonadults in the Middle Neolithic (N=699)

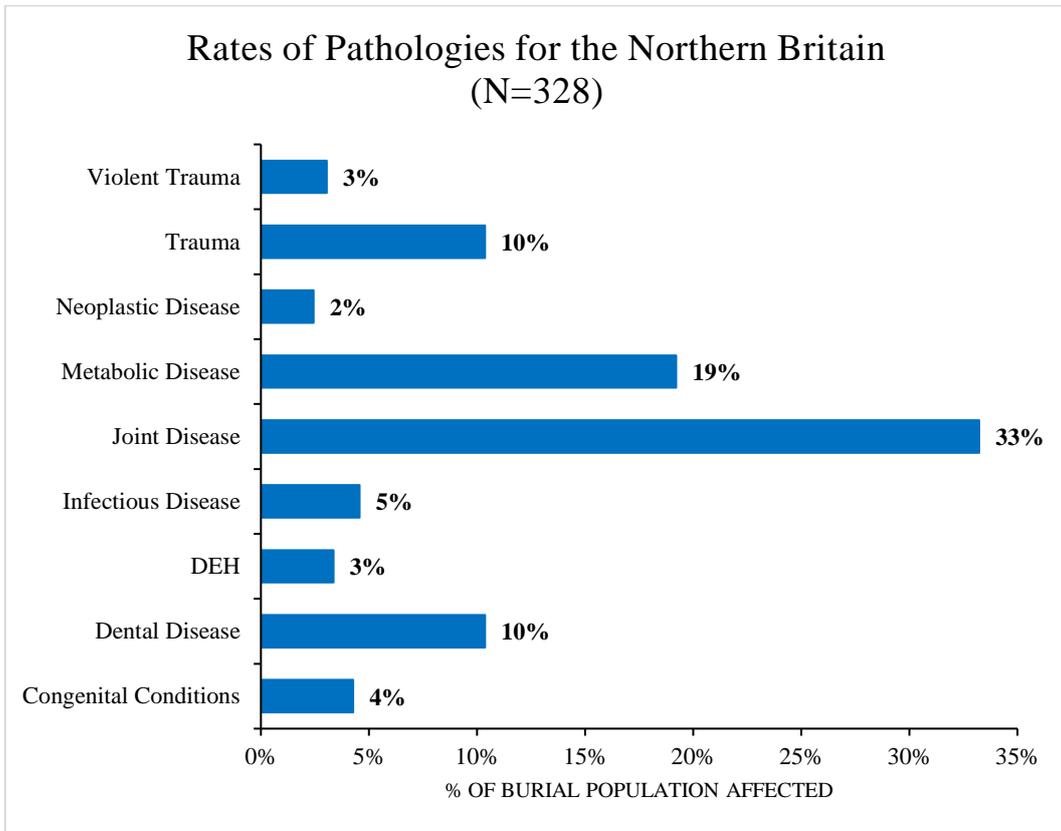

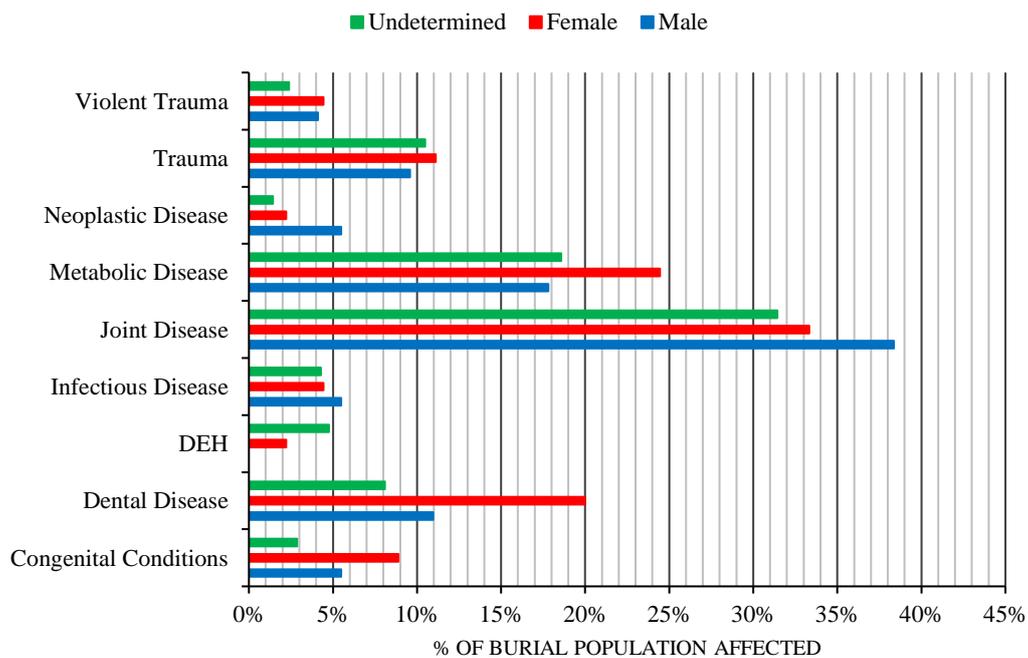

Rates of Pathologies for Males and Females in the Late Neolithic (No Undetermined) (N=11)

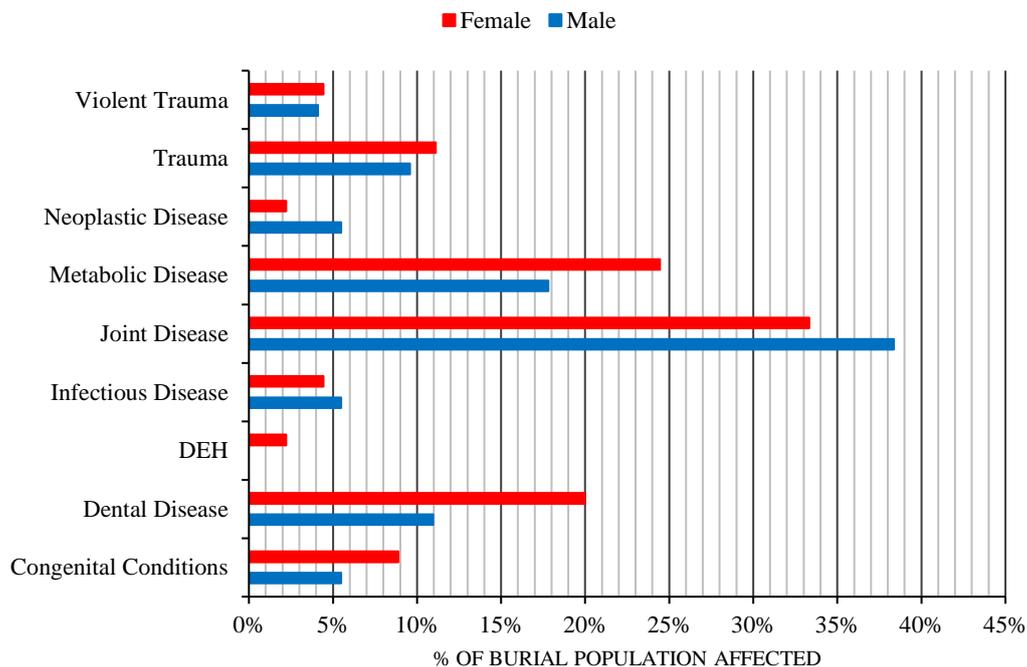

3. Neolithic Regions – Pathologies

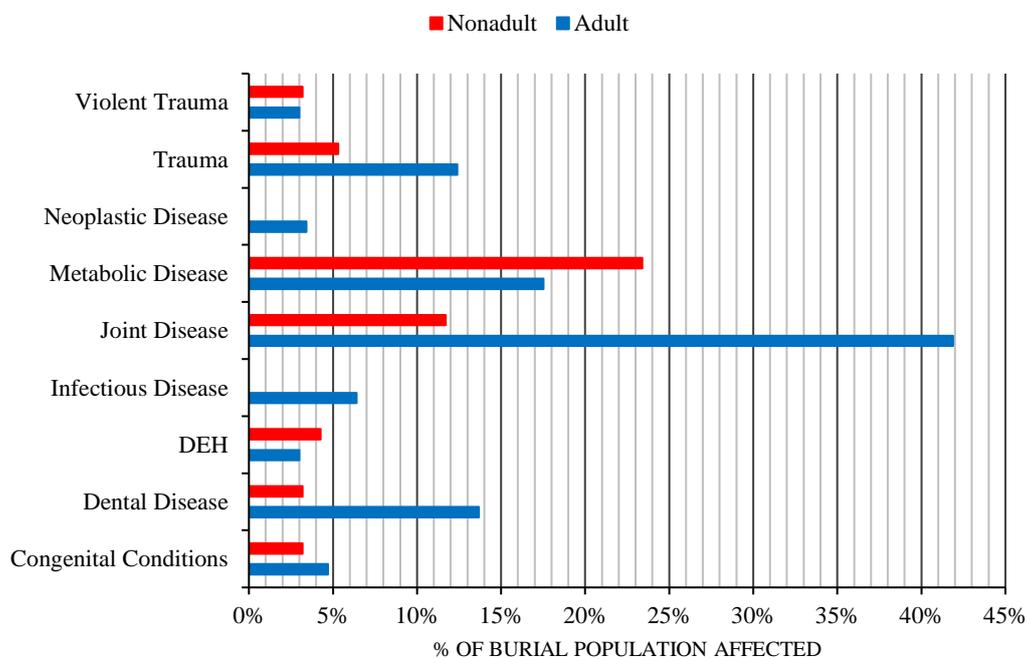

Rates of Pathologies for Males and Females in Northern Britain (N=328)

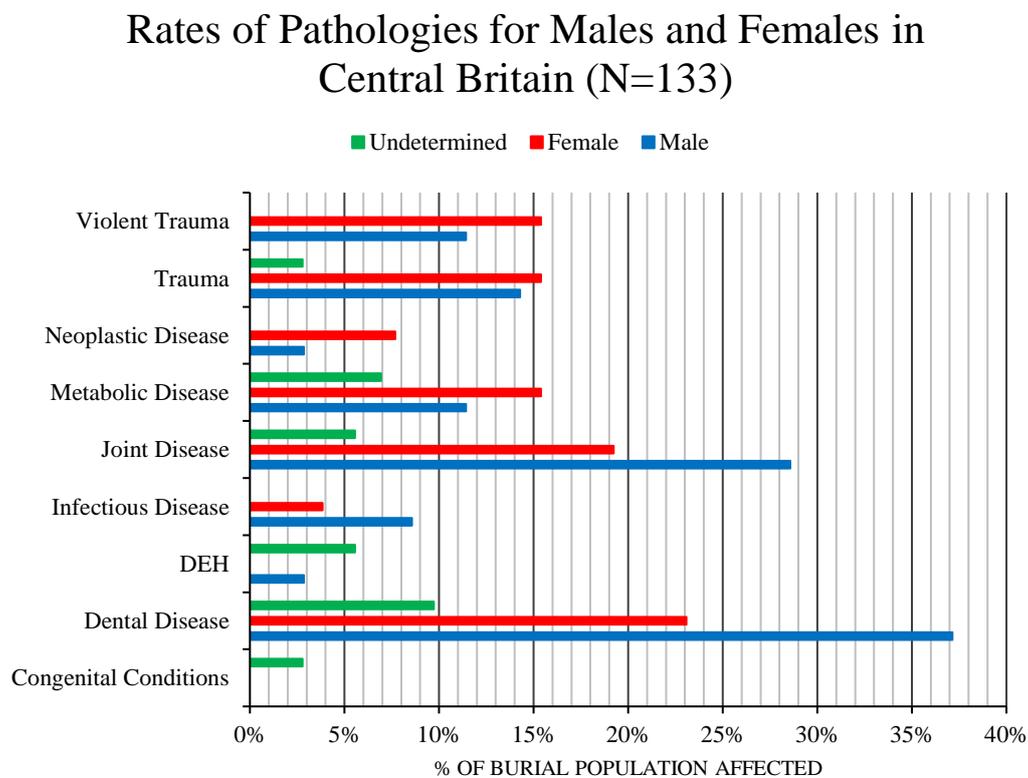

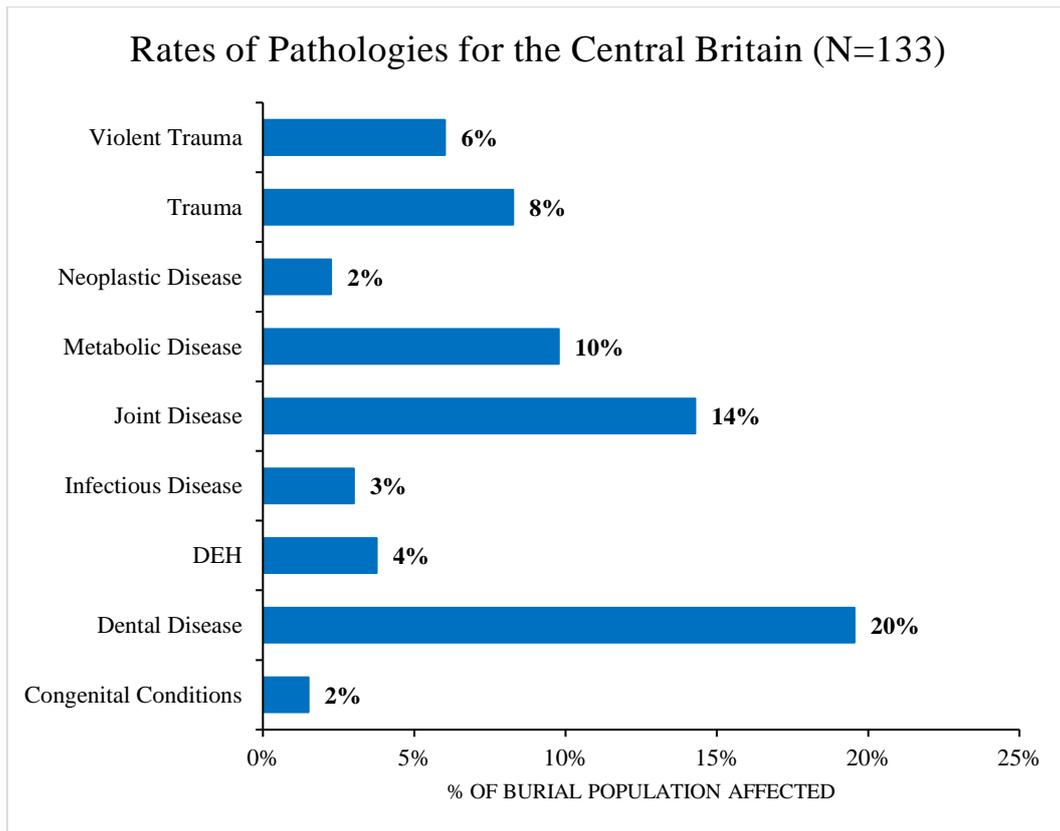

Rates of Pathologies for Males and Females in Northern Britain (No Undetermined) (N=118)

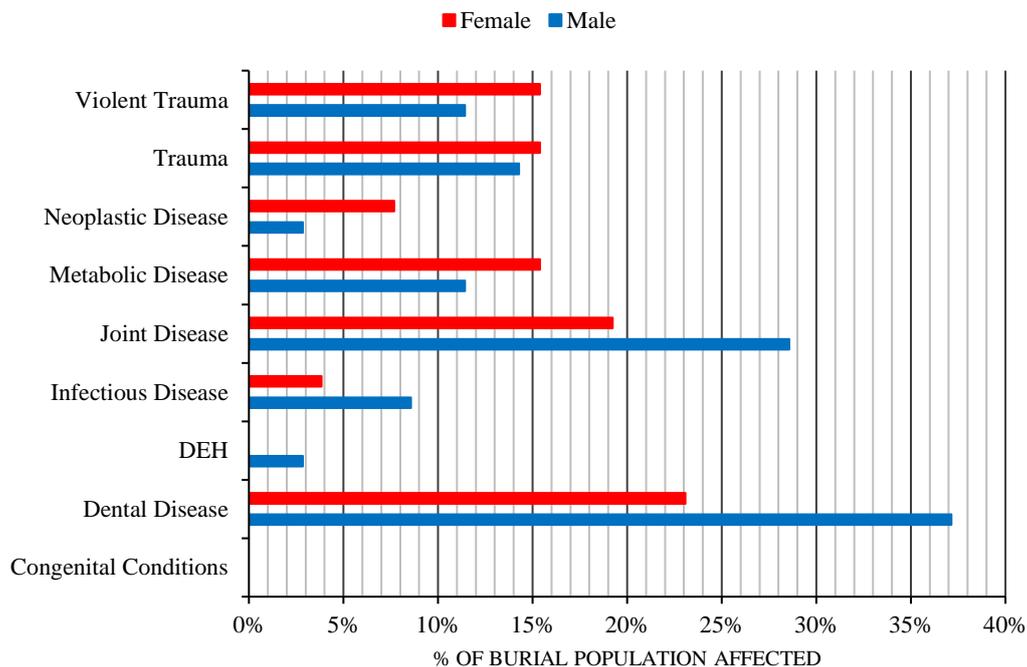

Rates of Pathologies for Adults and Nonadults in Northern Britain (N=328)

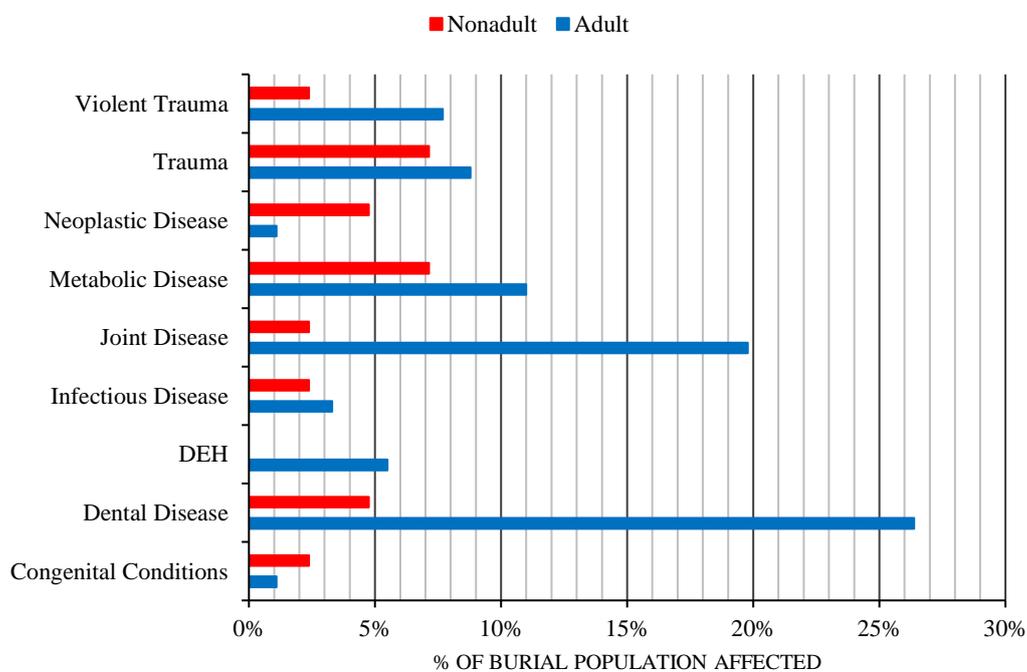

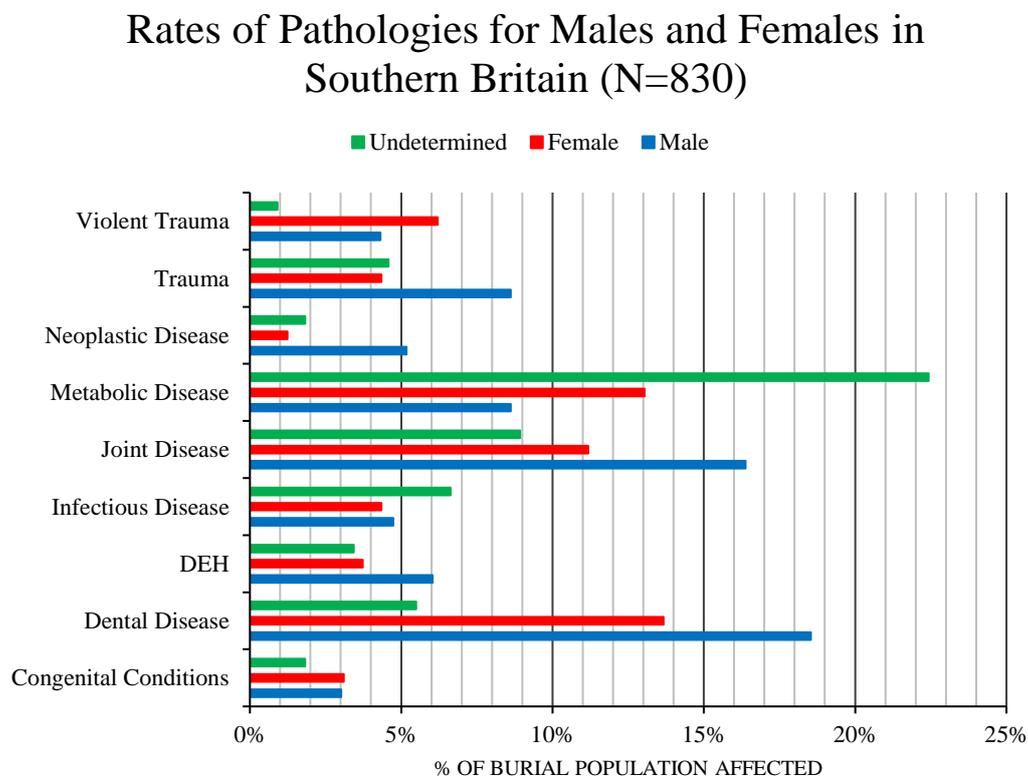

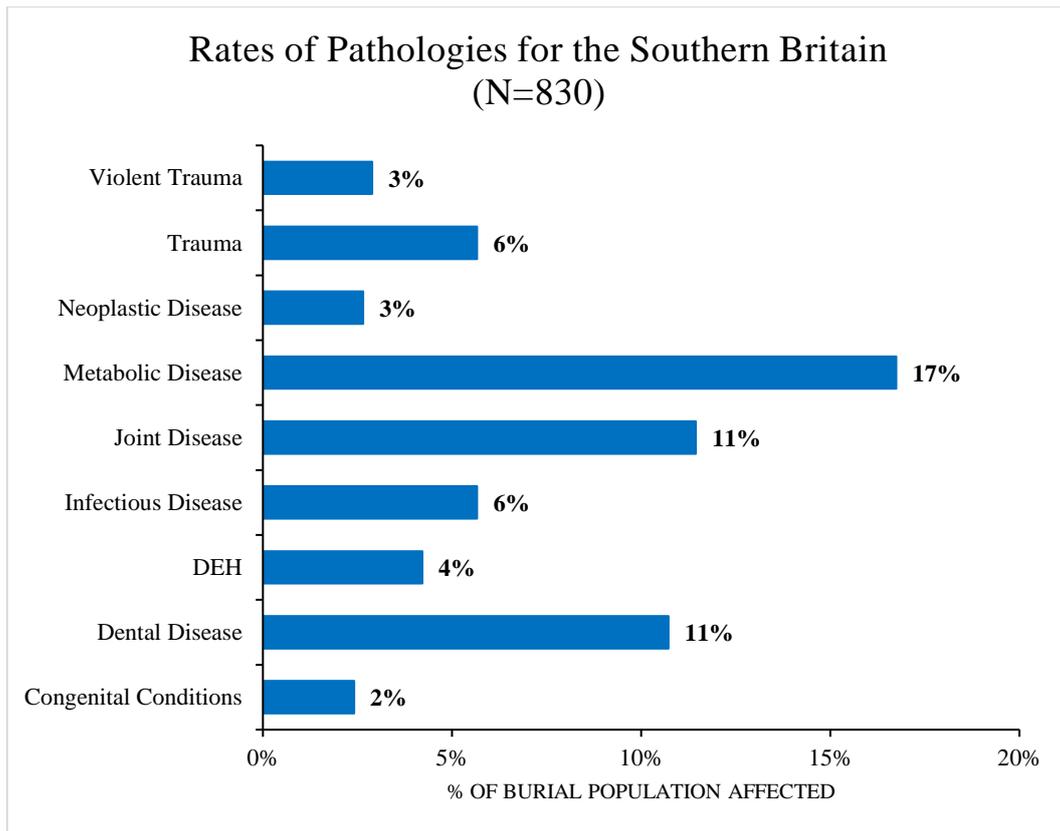

Rates of Pathologies for Males and Females in Central Britain (No Undetermined) (N=61)

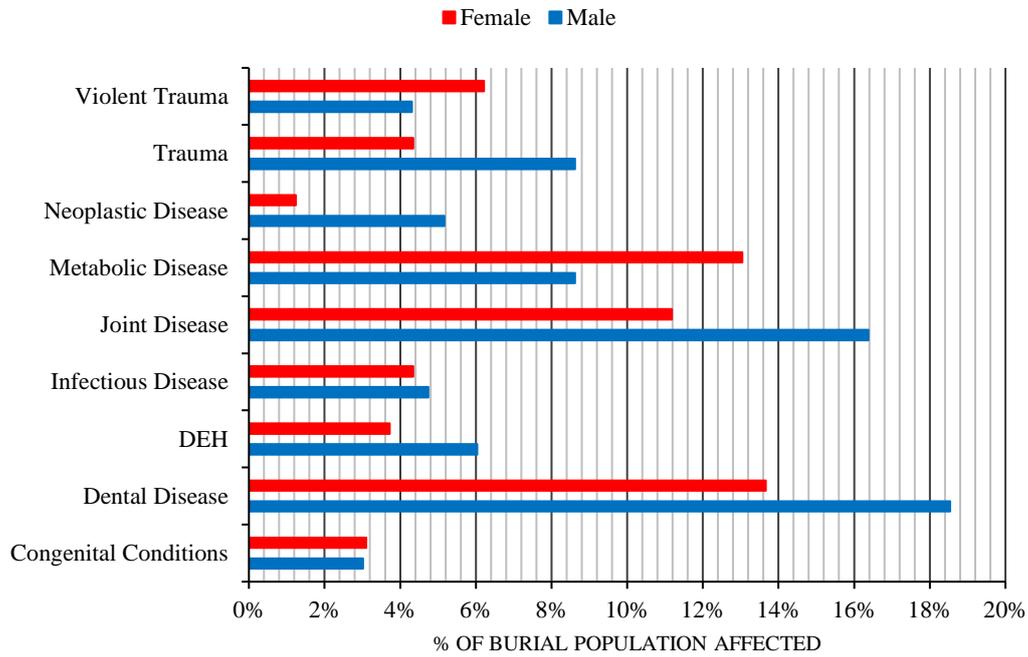

Rates of Pathologies for Adults and Nonadults in Central Britain (N=133)

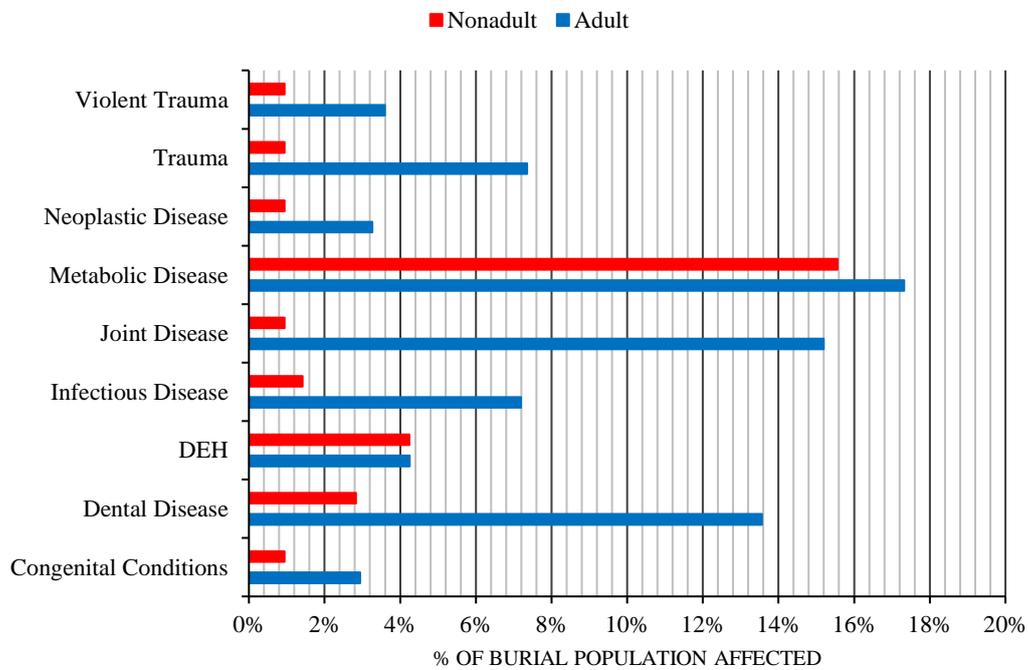

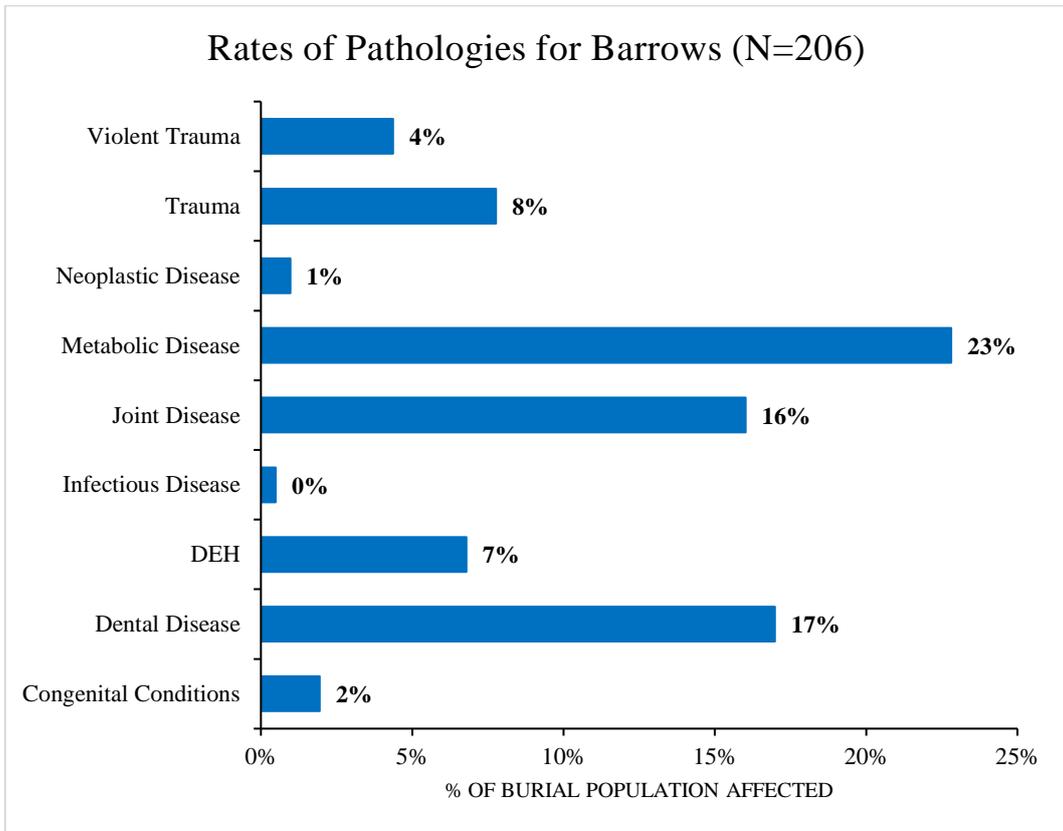

Rates of Pathologies for Males and Females in Southern Britain (No Undetermined) (N=393)

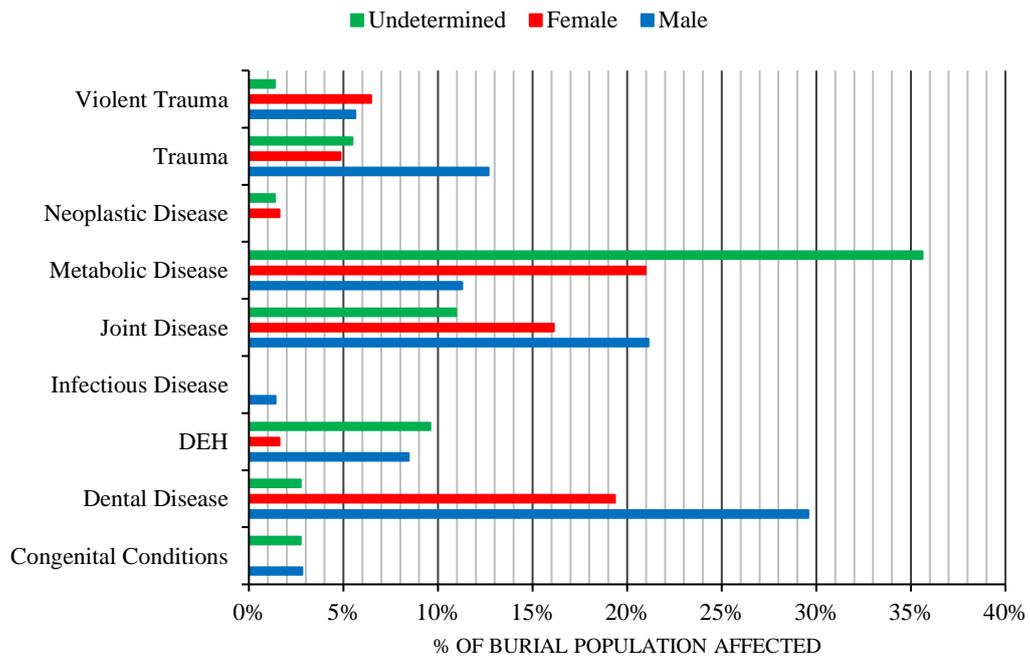

Rates of Pathologies for Adults and Nonadults in Southern Britain (N=824)

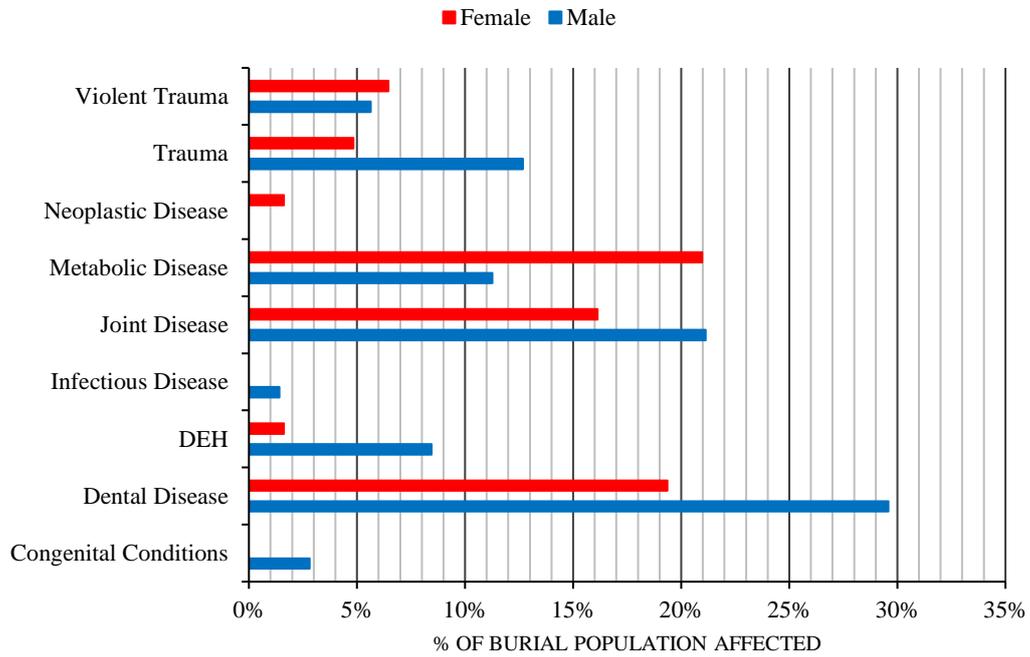

4. Site Types – Pathologies

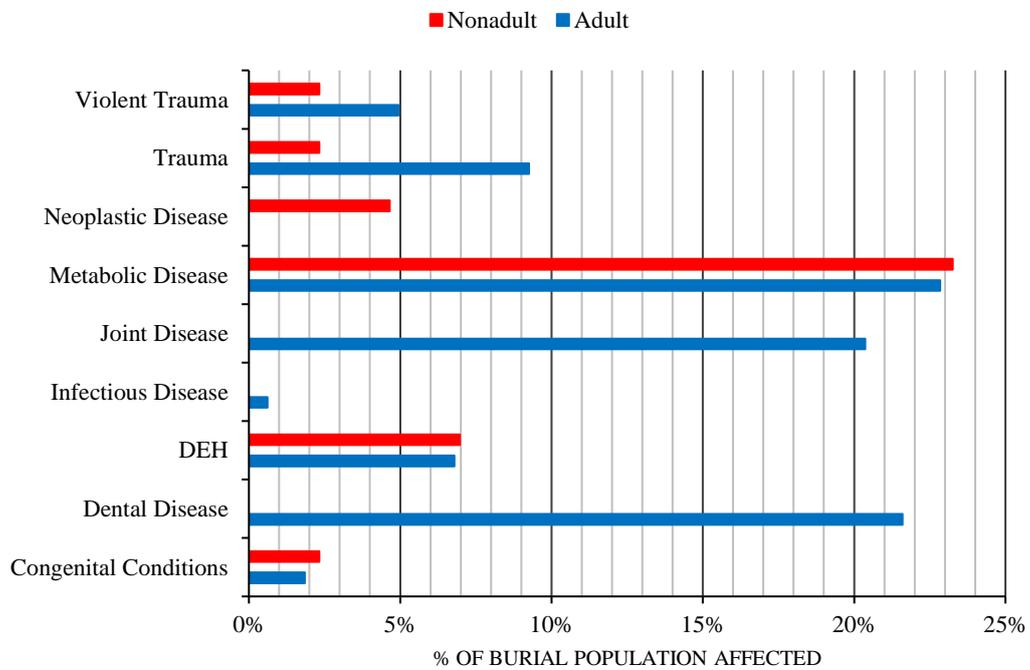

Rates of Pathologies for Males and Females in Barrows (N=206)

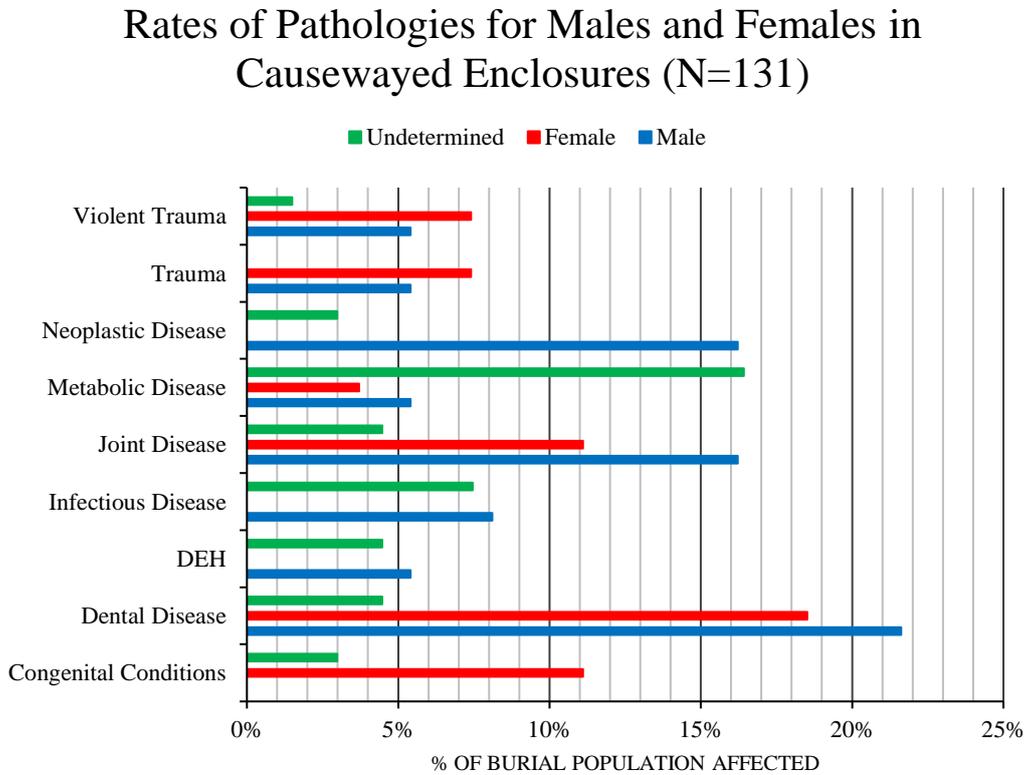

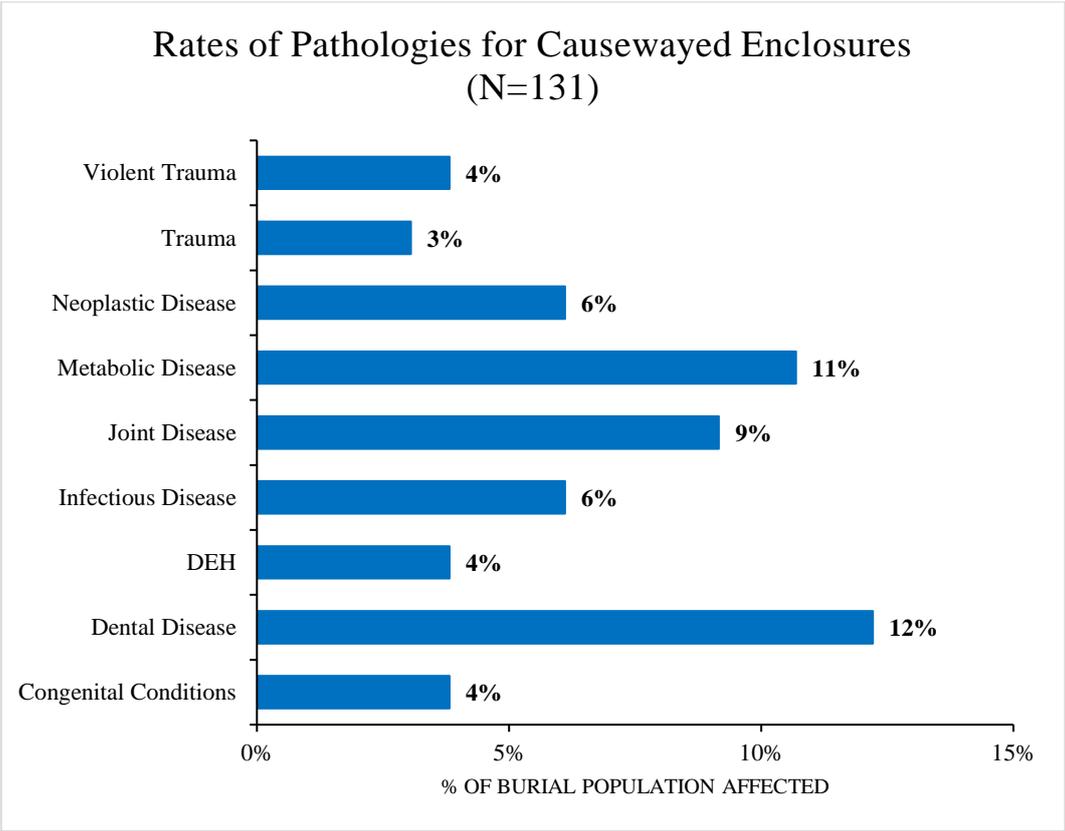

Rates of Pathologies for Males and Females in Barrows (No Undetermined) (N=133)

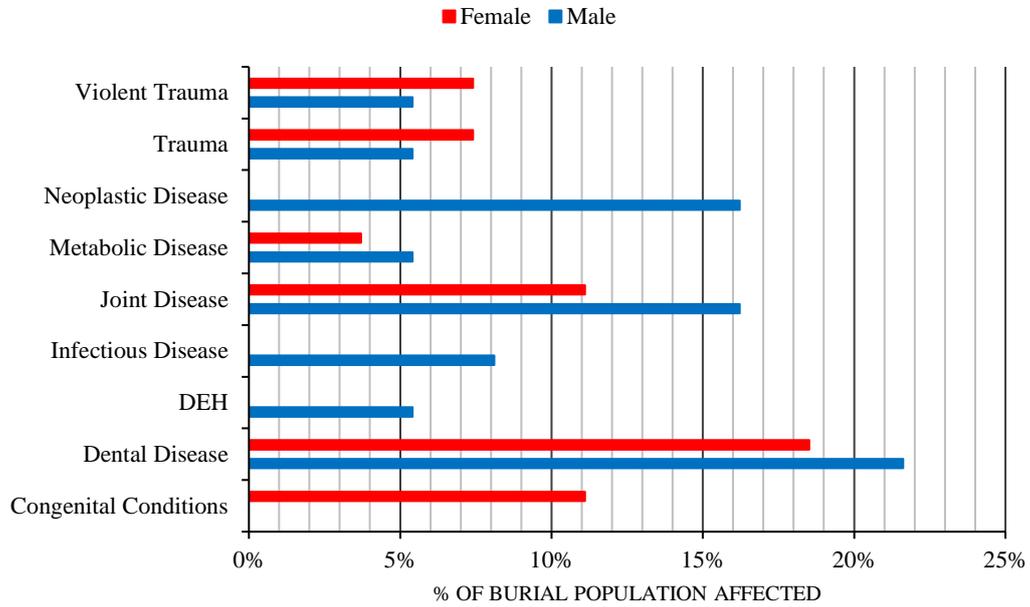

Rates of Pathologies for Adults and Nonadults in Barrows (N=205)

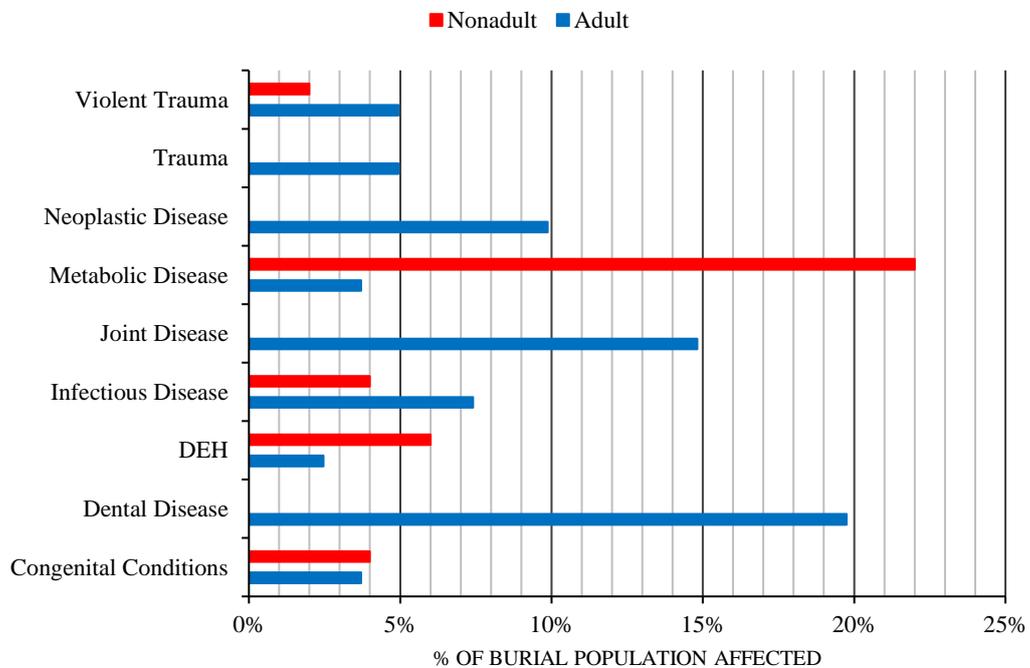

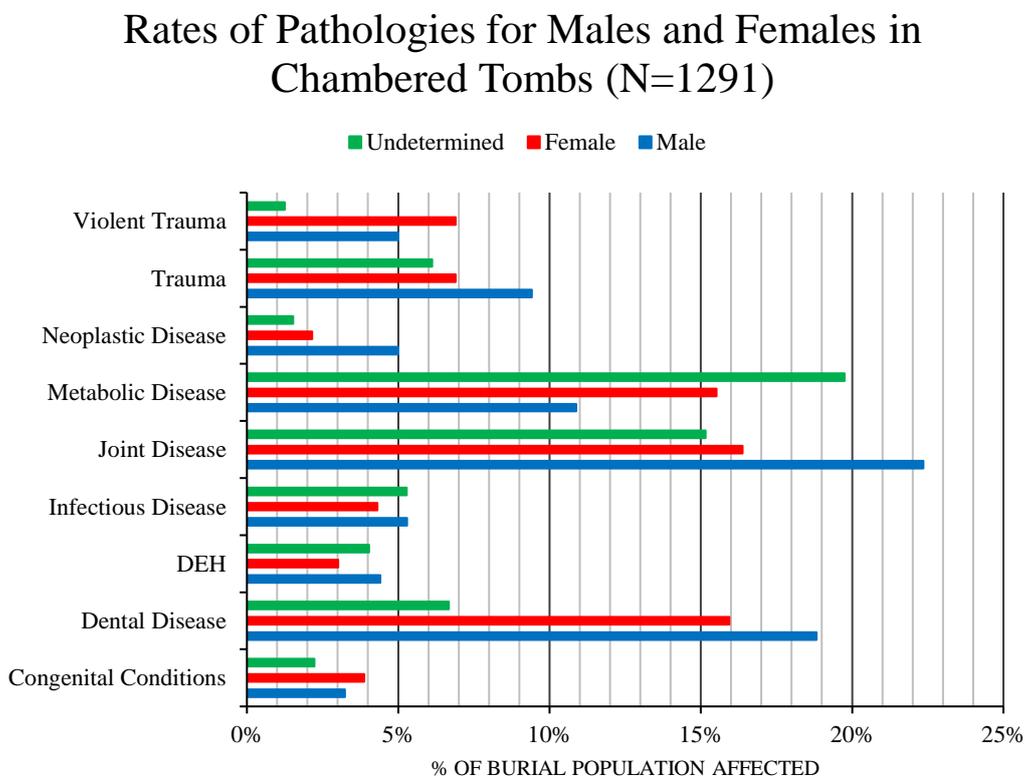

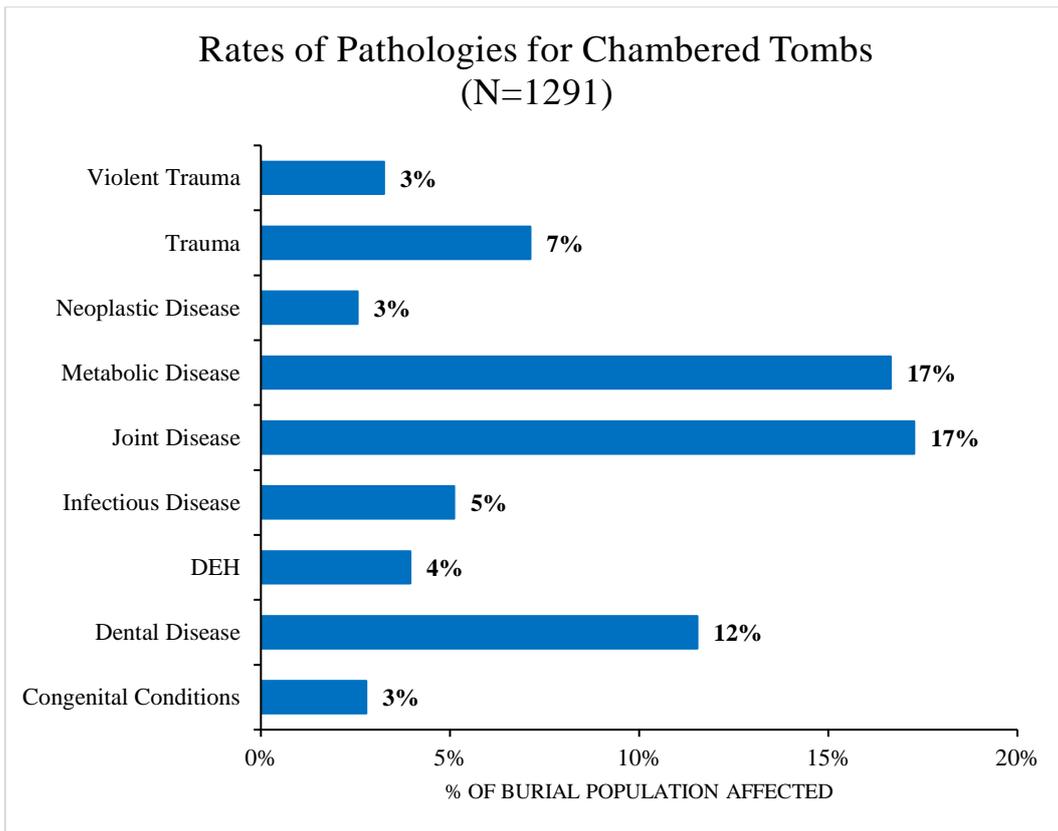

Rates of Pathologies for Males and Females in Causewayed Enclosures (No Undetermined) (N=64)

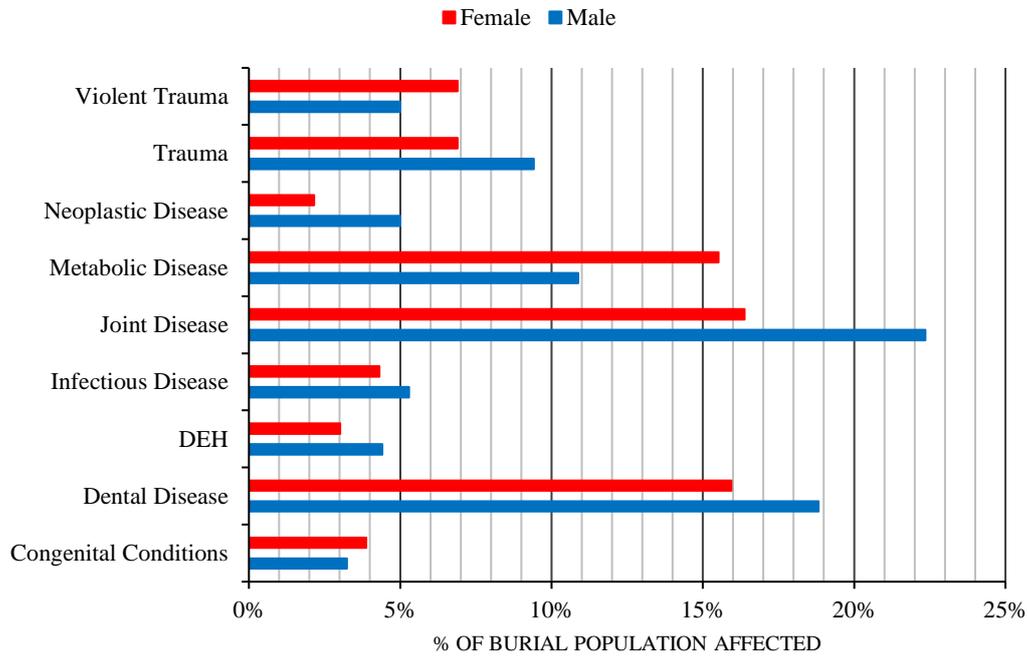

Rates of Pathologies for Adults and Nonadults in Causewayed Enclosures (N=131)

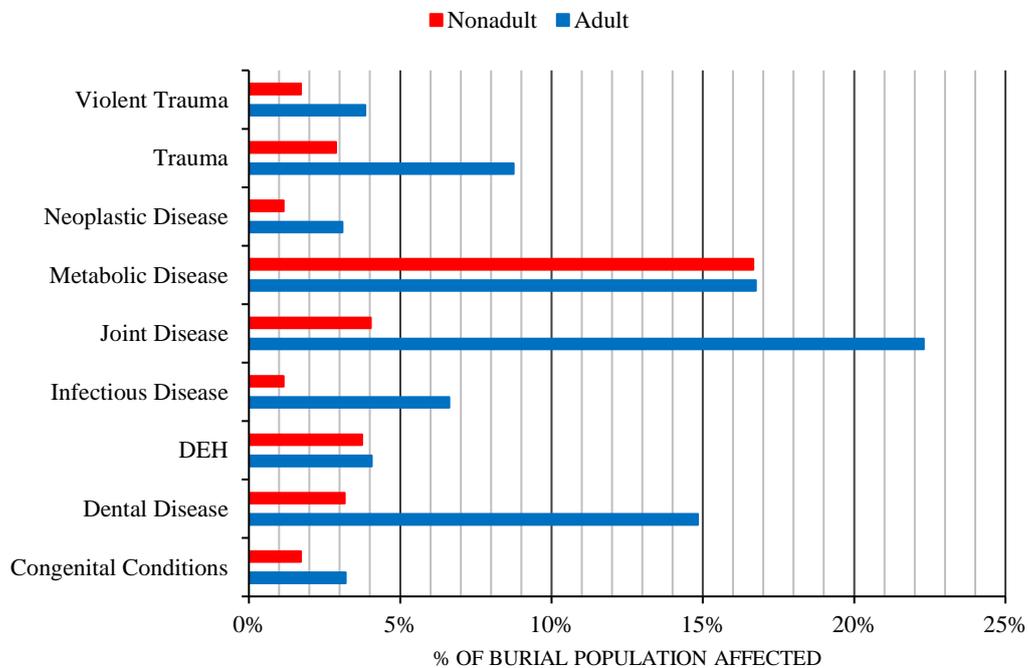

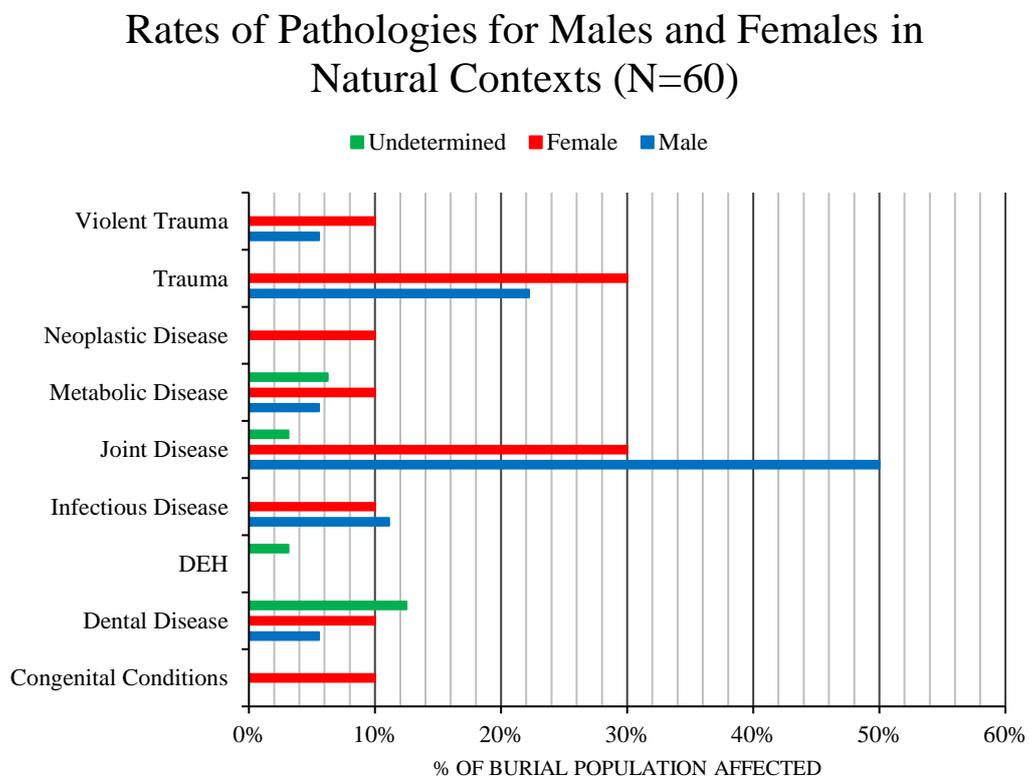

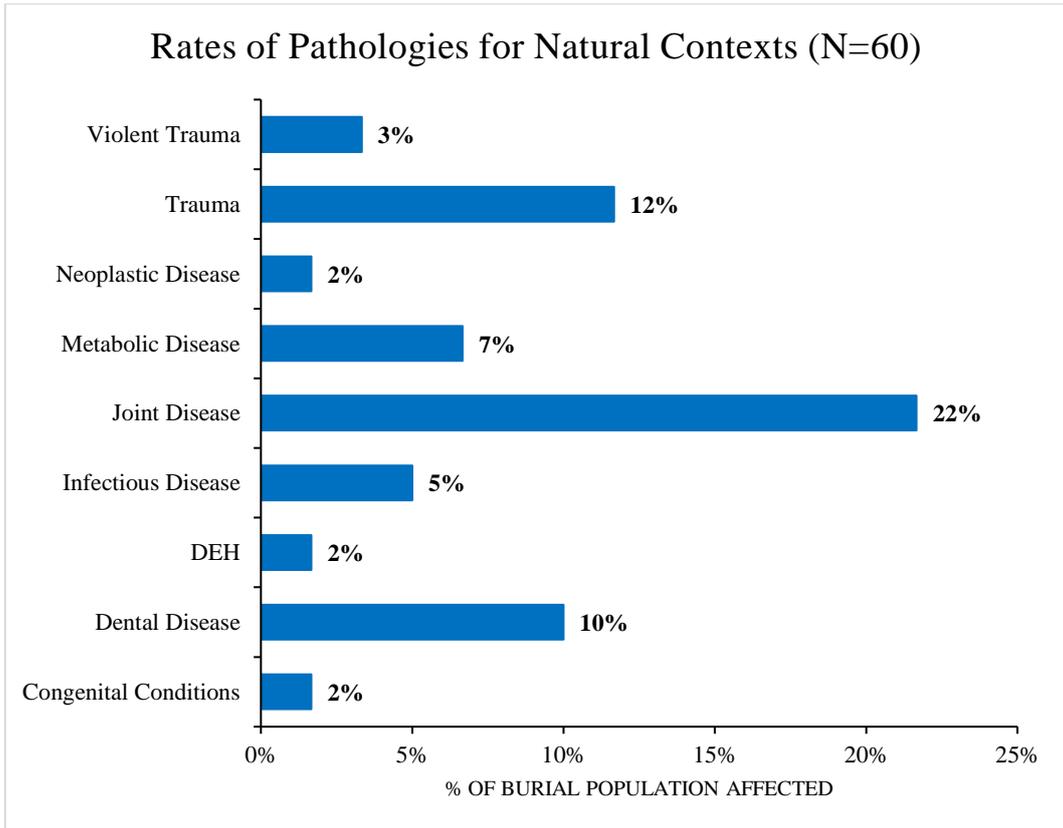

Rates of Pathologies for Males and Females in Chambered Tombs (No Undetermined) (N=572)

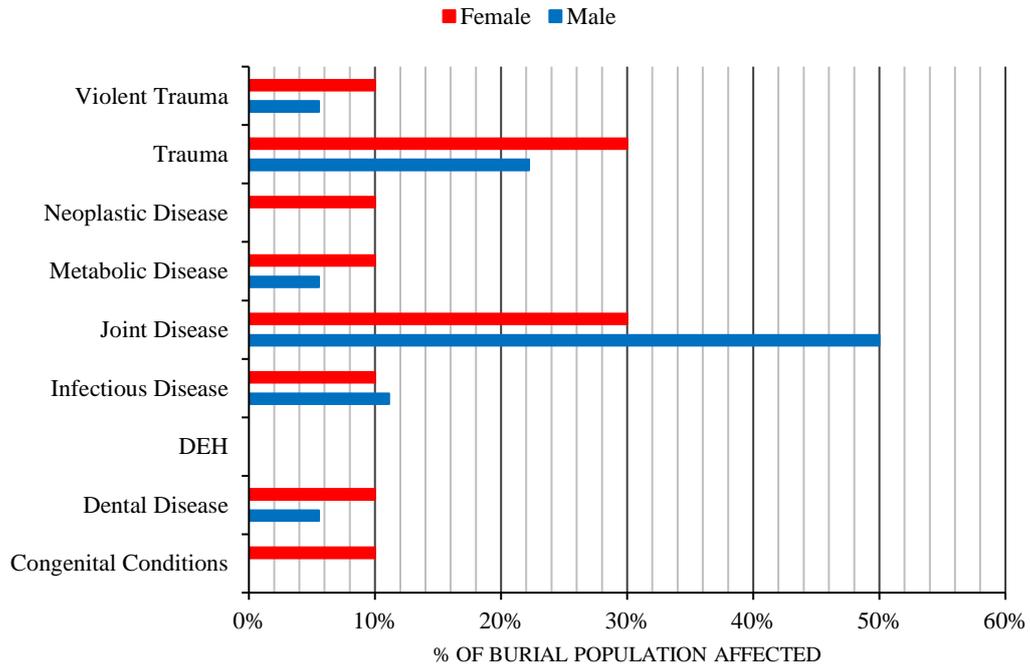

Rates of Pathologies for Adults and Nonadults in Chambered Tombs (N=1285)

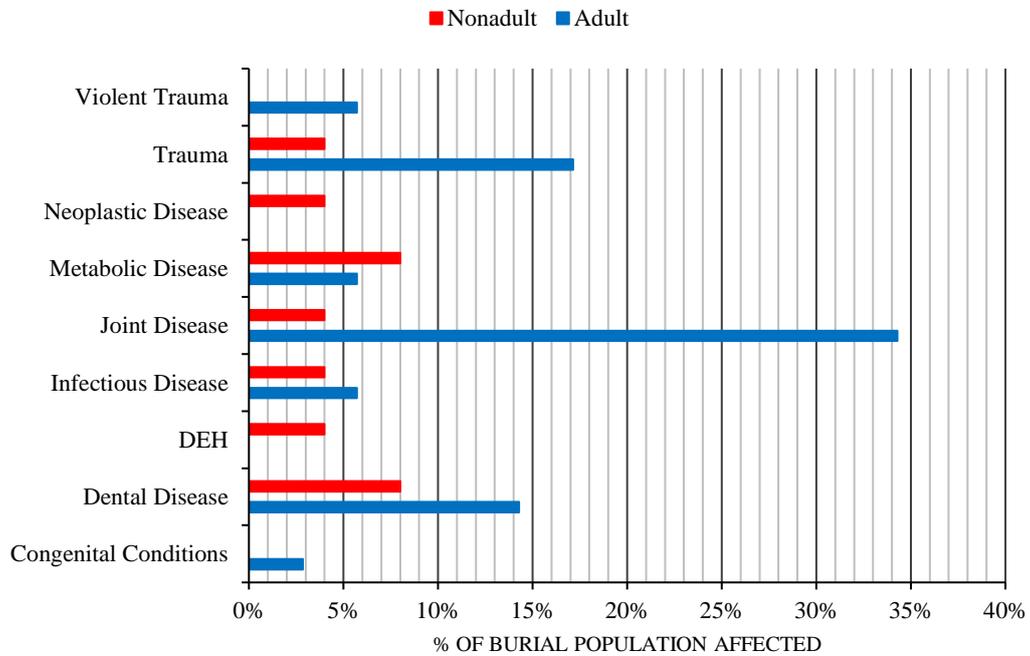

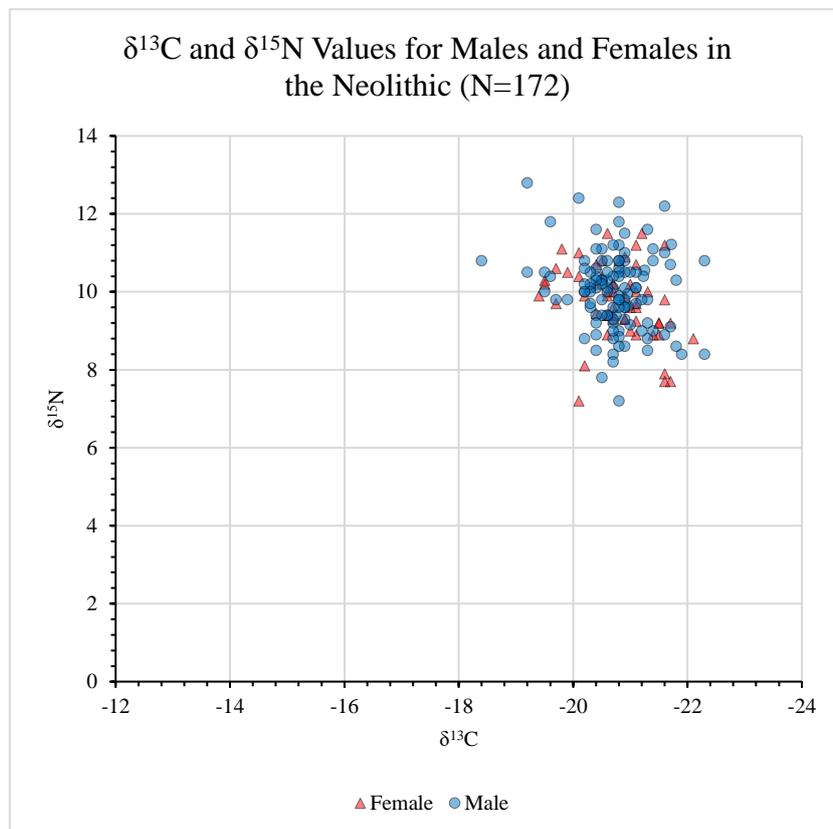

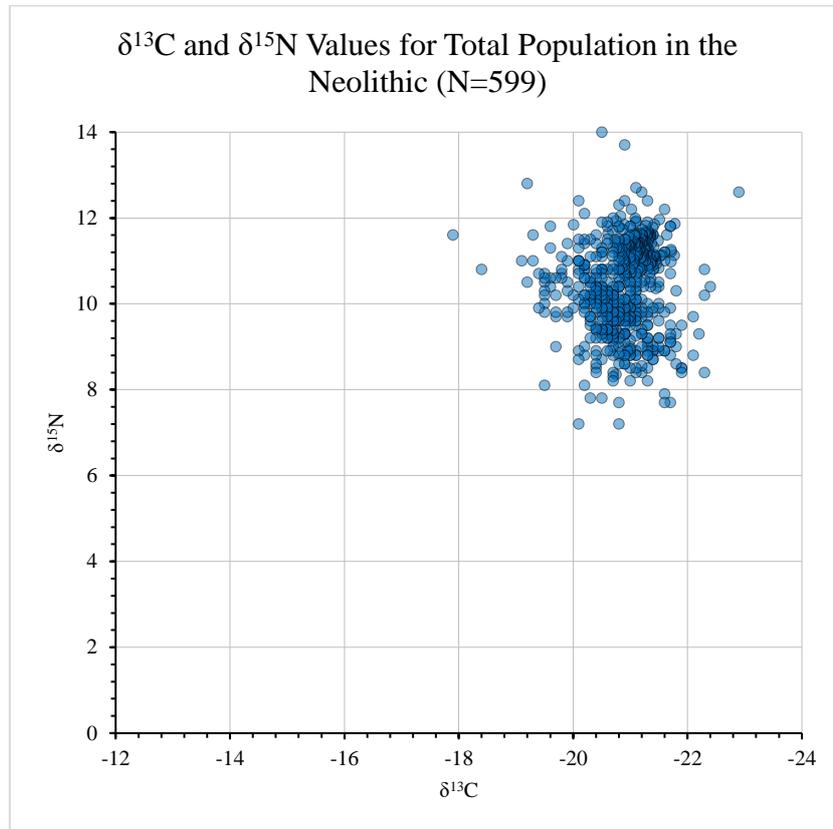

Rates of Pathologies for Males and Females in Natural Contexts (No Undetermined) (N=28)

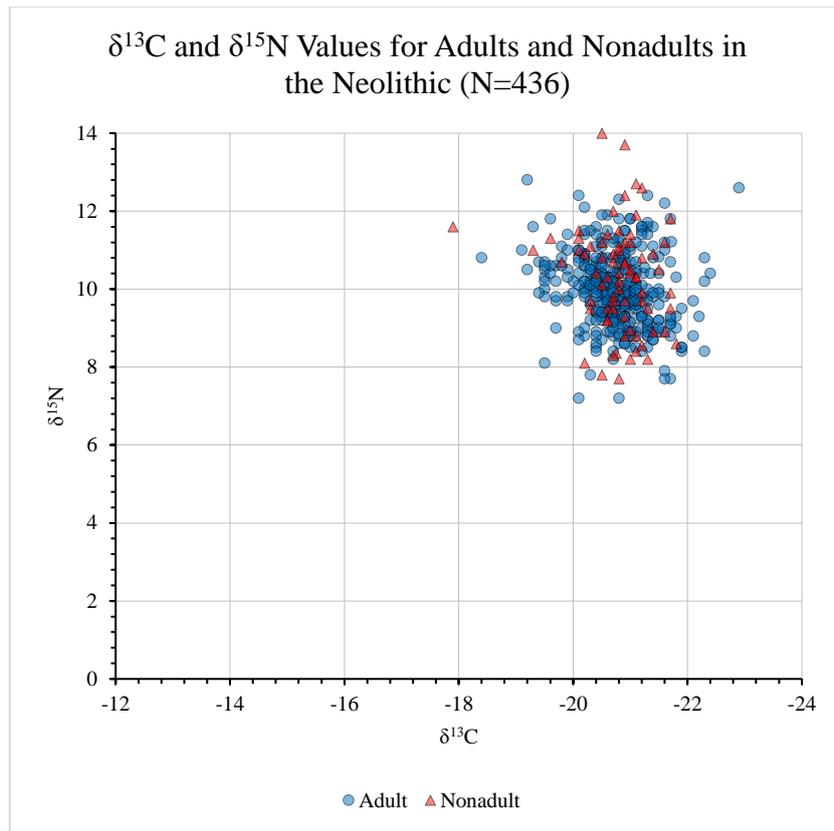

Rates of Pathologies for Adults and Nonadults in Natural Contexts (N=60)

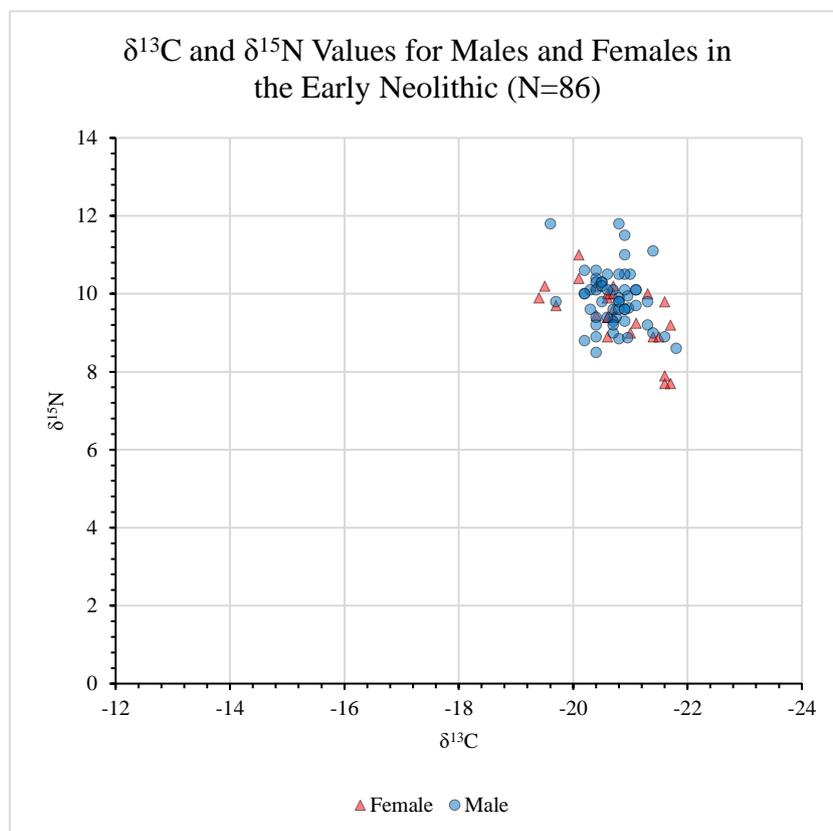

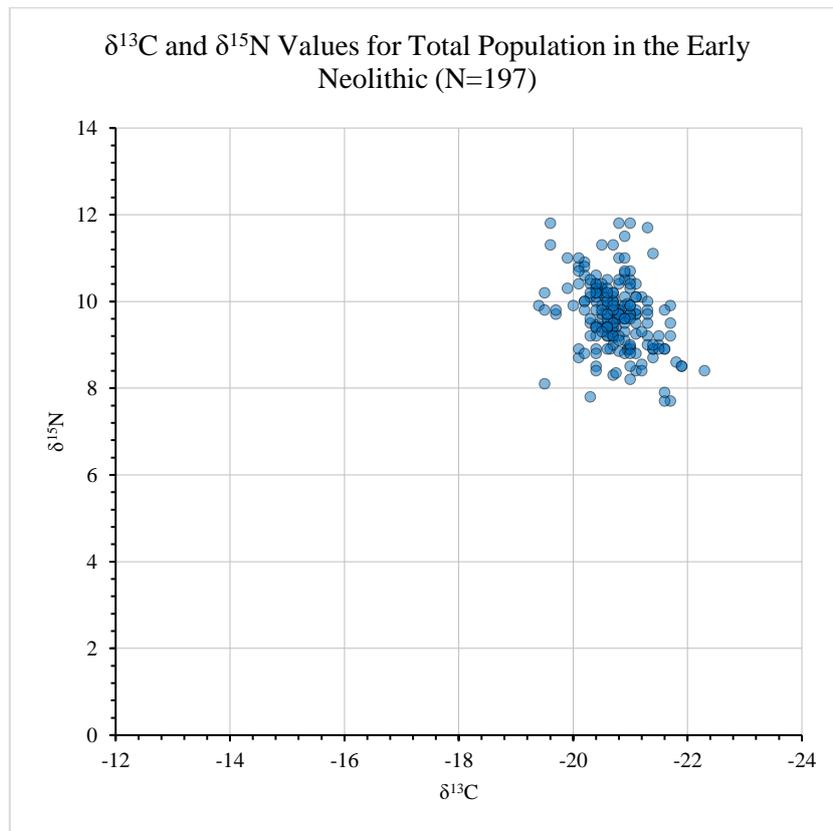

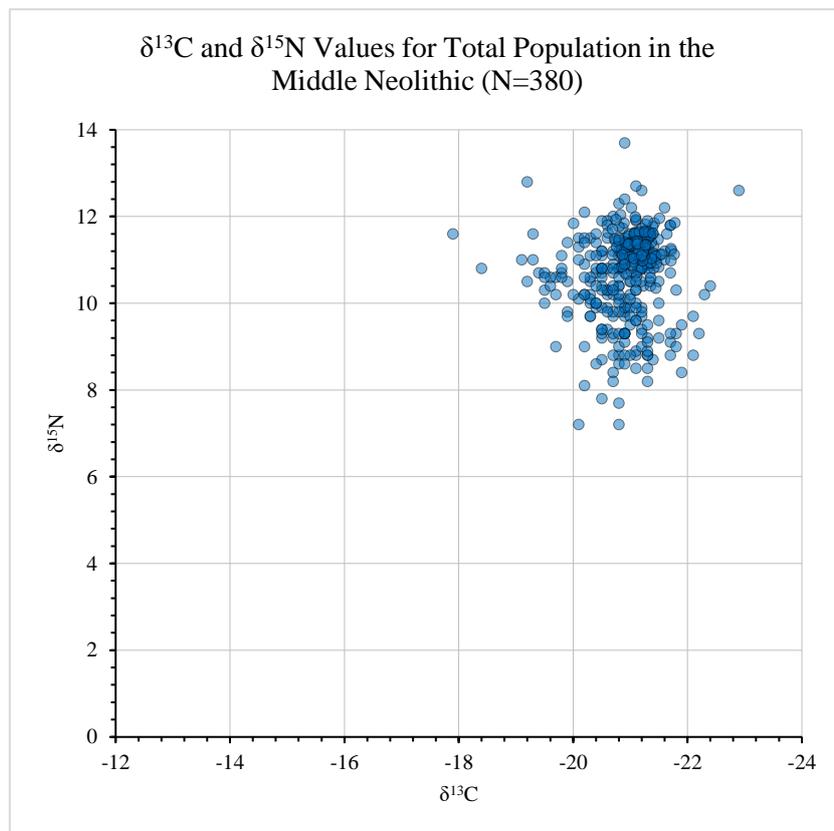

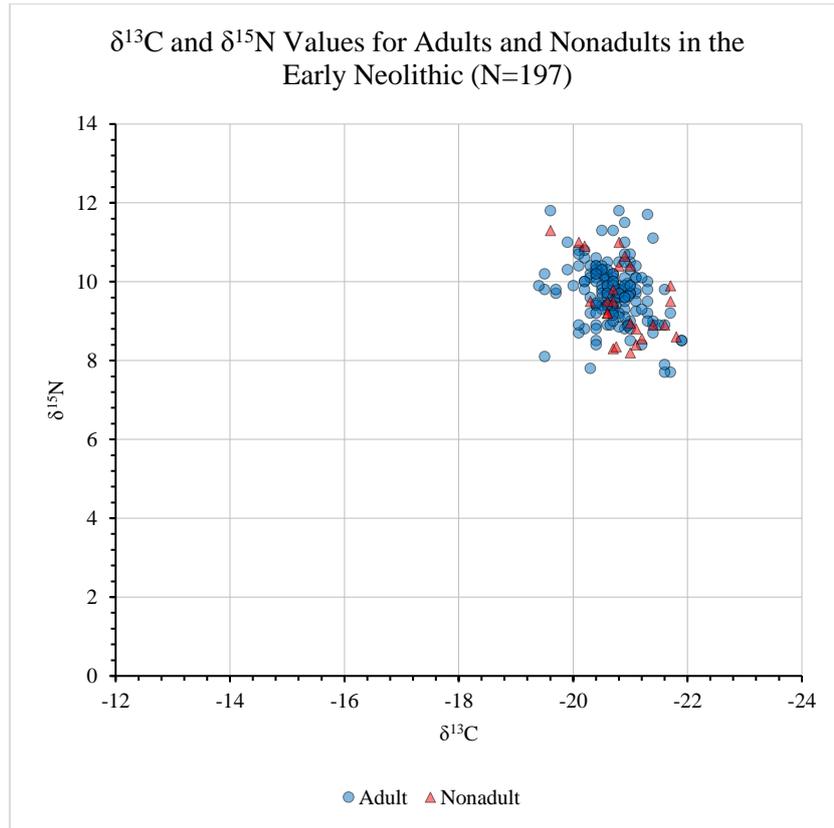

5. Neolithic as a Whole – Carbon and Nitrogen

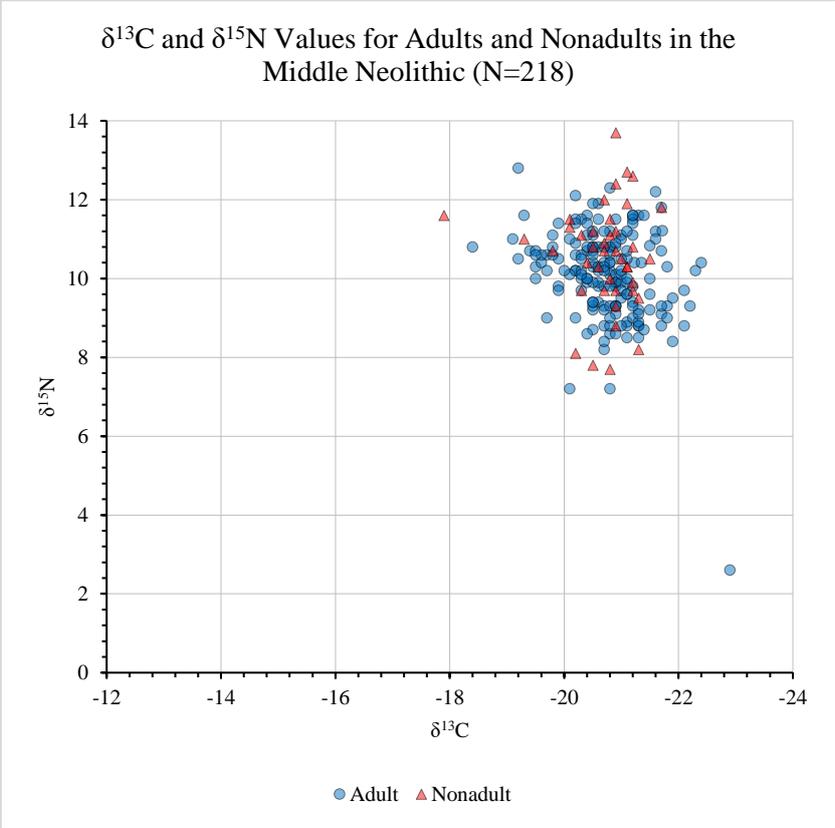

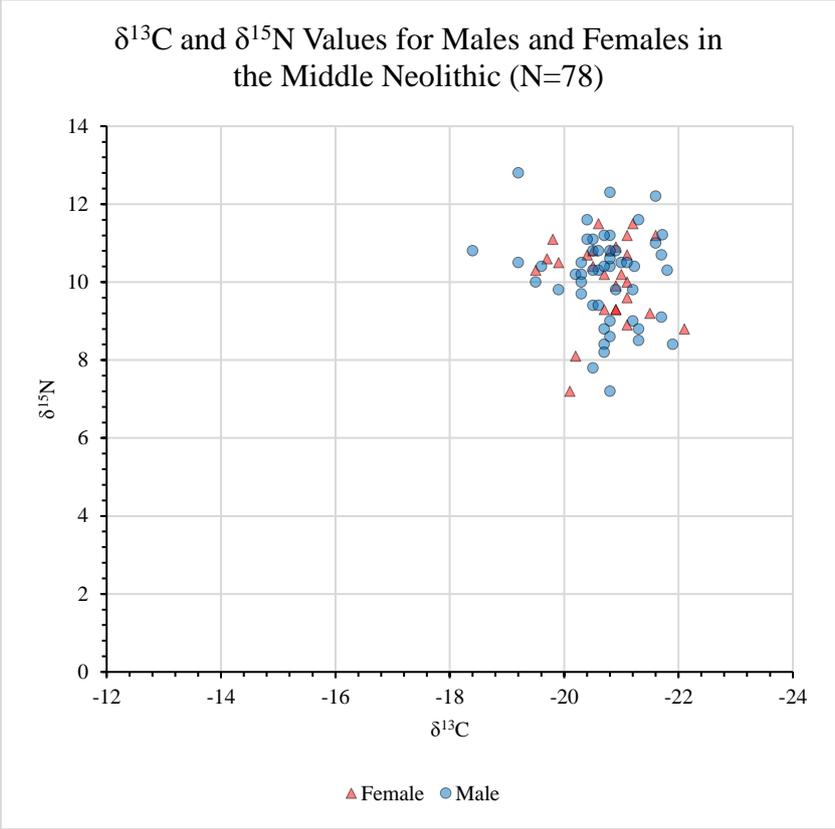

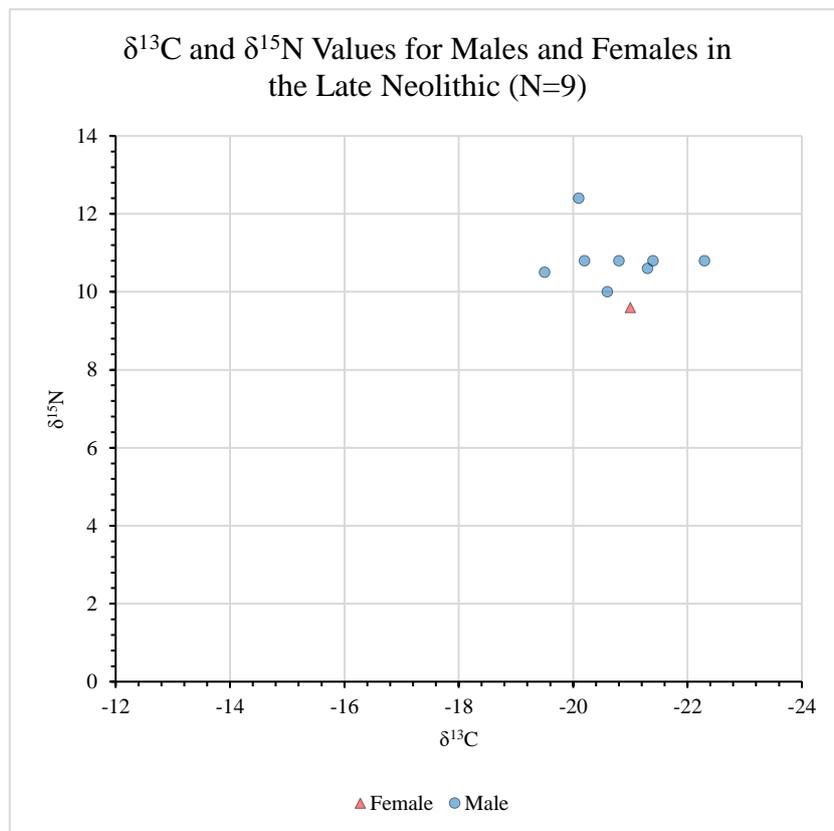

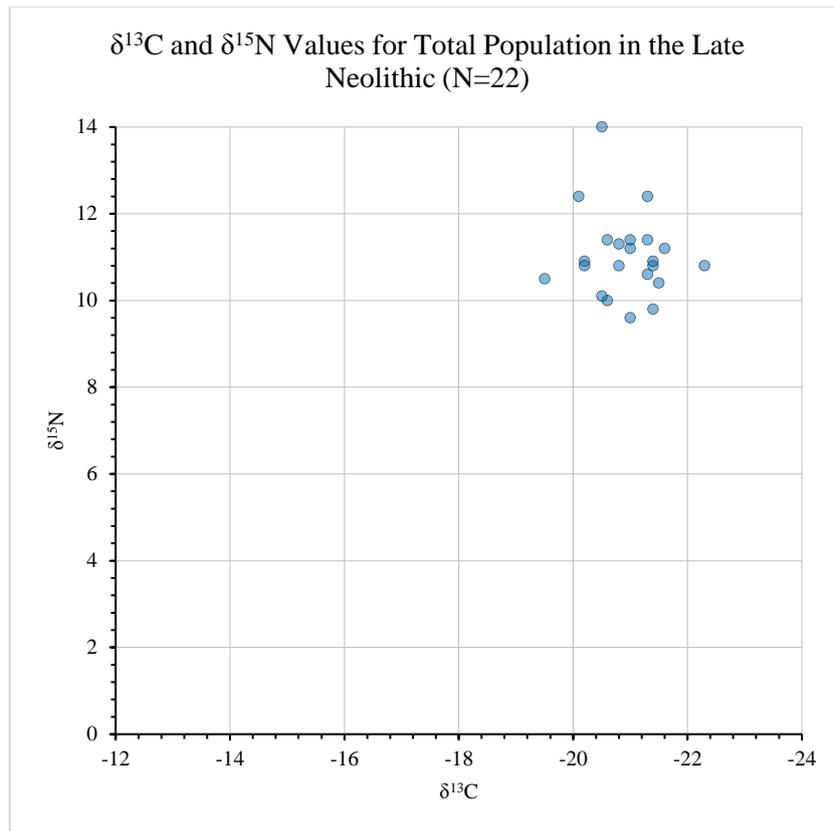

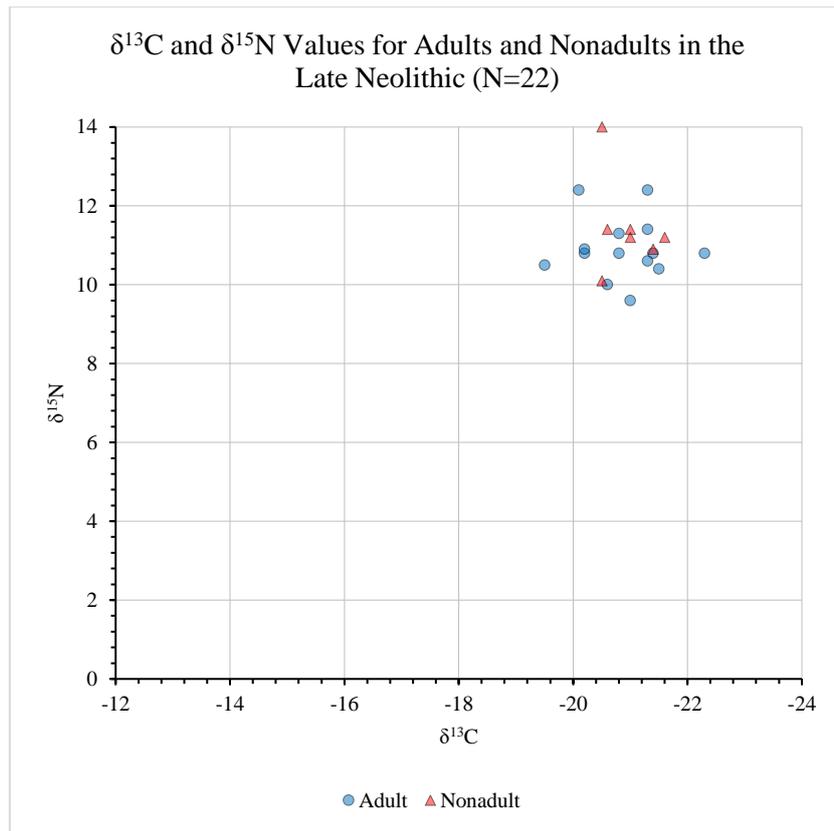

6. Chronological Stages – Carbon and Nitrogen

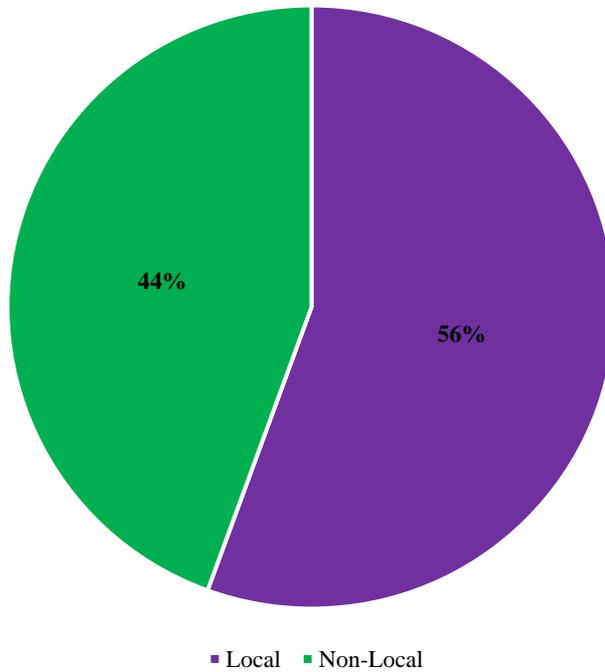

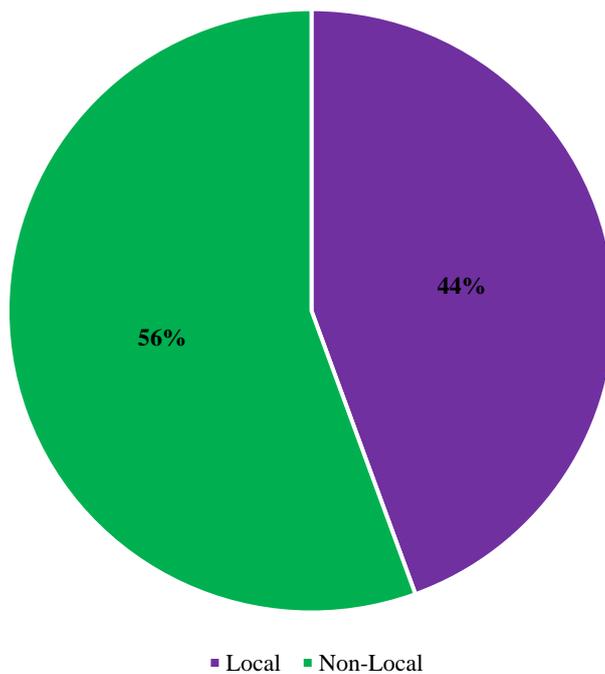

7. Neolithic as a Whole – Strontium and Oxygen

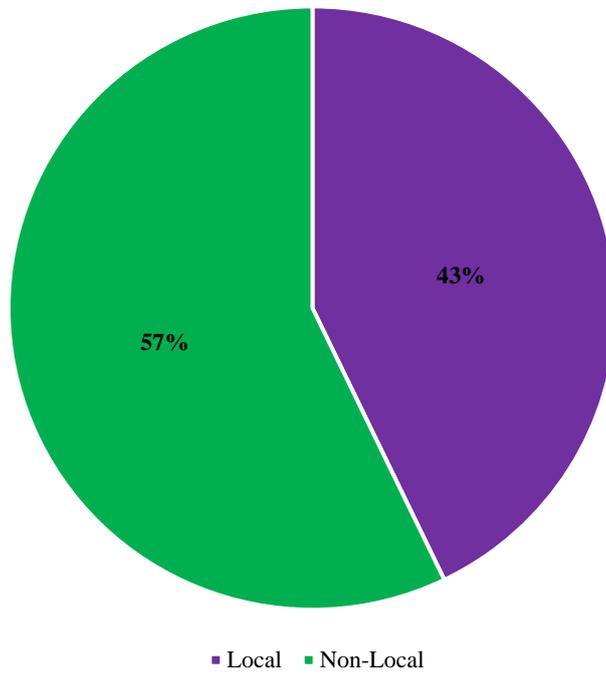

Local vs Non-Local for Males in the Neolithic
(N=18)

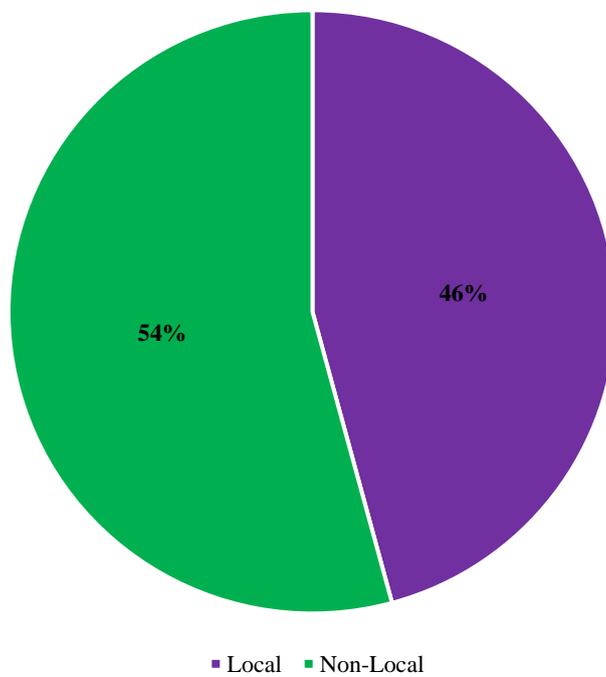

Local vs Non-Local for Females in the
Neolithic (N=9)

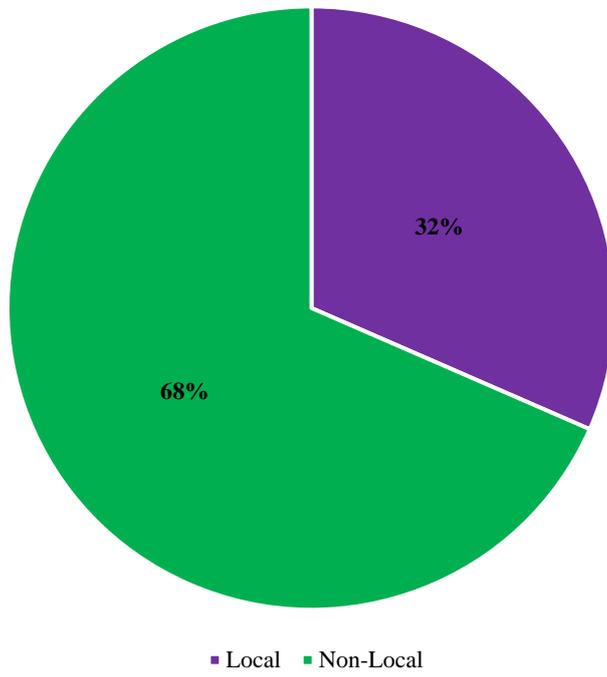

Local vs Non-Local for Undetermined in the Neolithic (N=56)

Local vs Non-Local for Adults in the Neolithic (N=83)

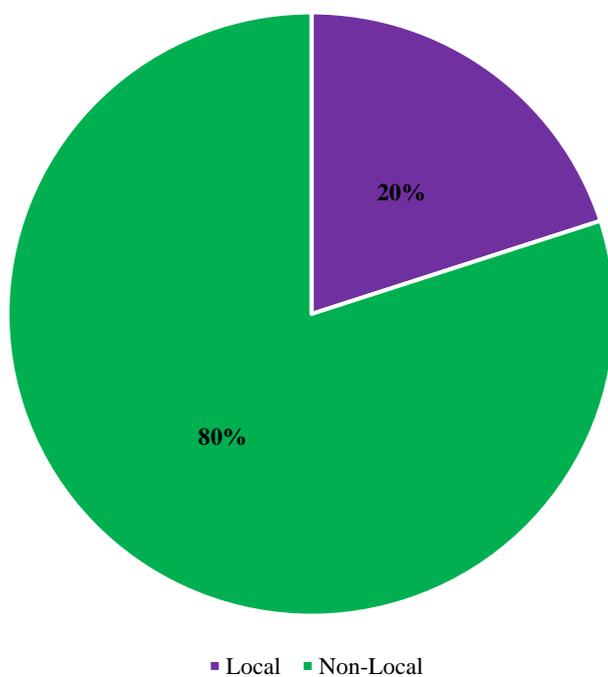

Local vs Non-Local for Nonadults in the Neolithic (N=38)

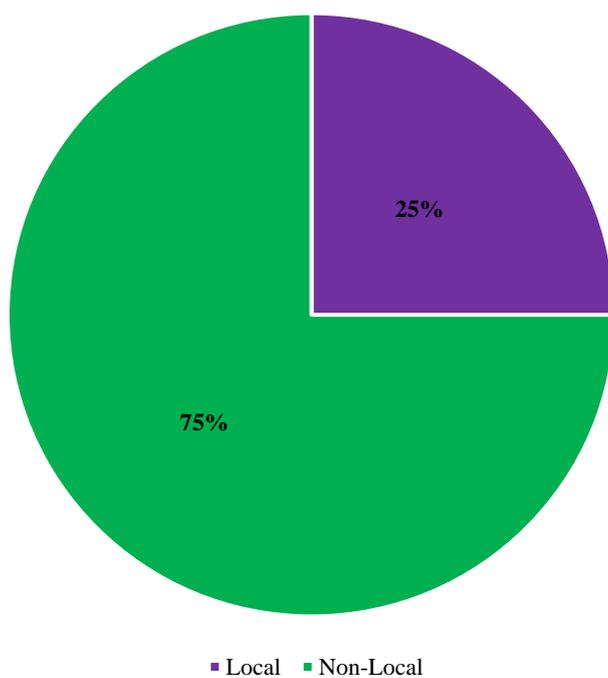

8. Chronological Stages – Strontium and Oxygen

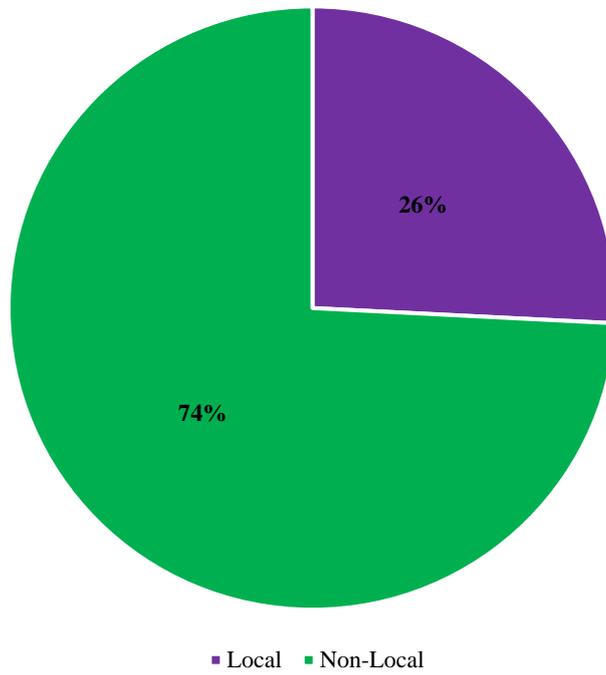

Local vs Non-Local for Males in the Early Neolithic (N=5)

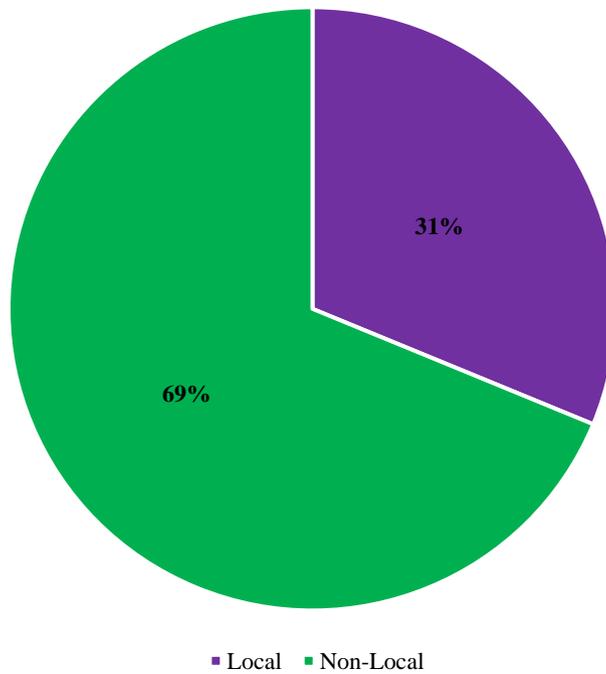

Local vs Non-Local for Females in the Early Neolithic (N=4)

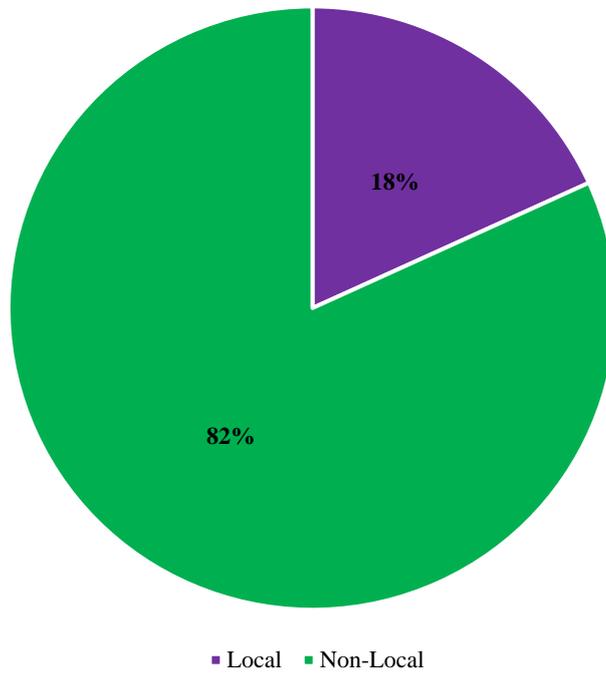

Local vs Non-Local for Undetermined in the Early Neolithic (N=31)

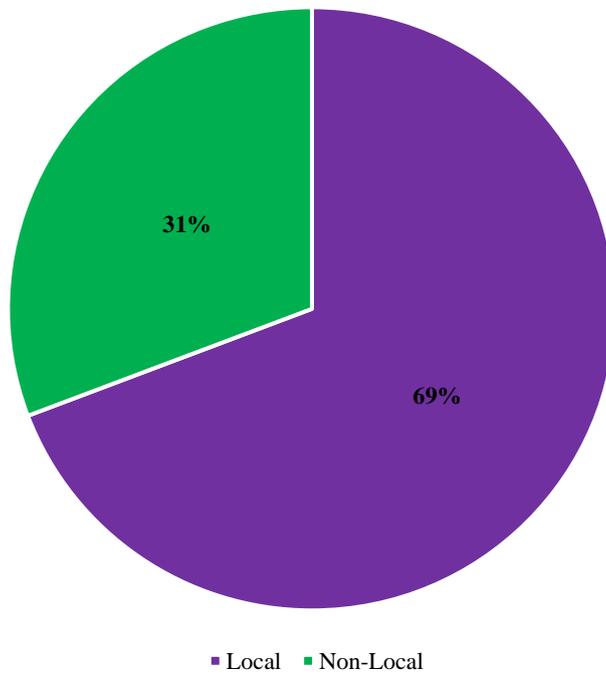

Local vs Non-Local for Adults in the Early Neolithic (N=32)

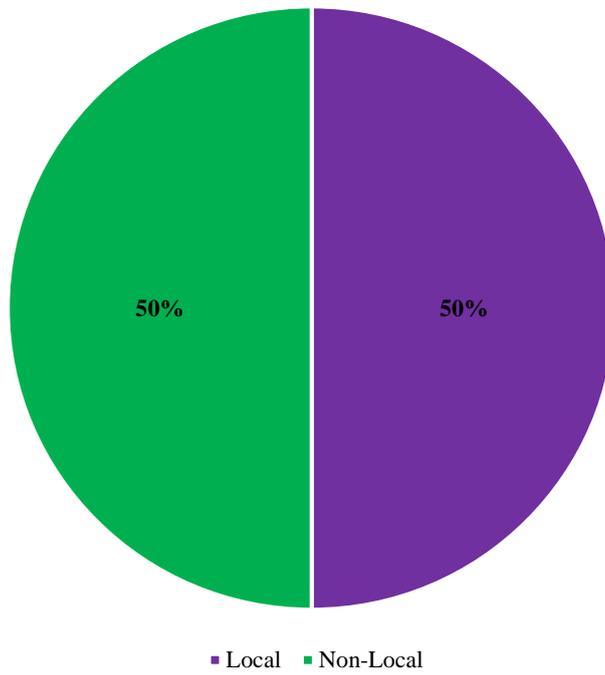

Local vs Non-Local for Nonadults in the Early Neolithic (N=11)

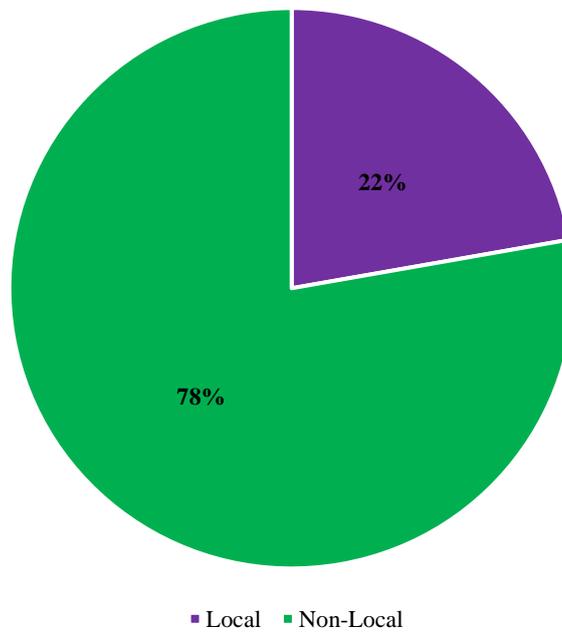

Local vs Non-Local for Males in the Middle Neolithic (N=13)

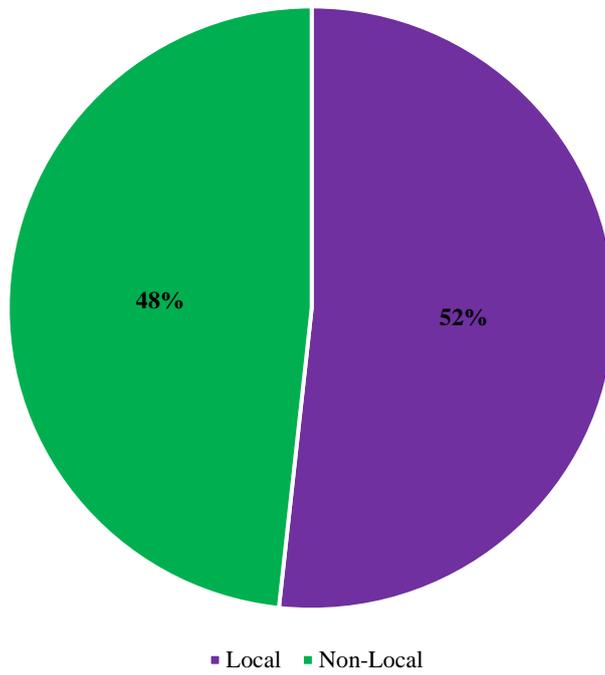

Local vs Non-Local for Females in the Middle Neolithic (N=2)

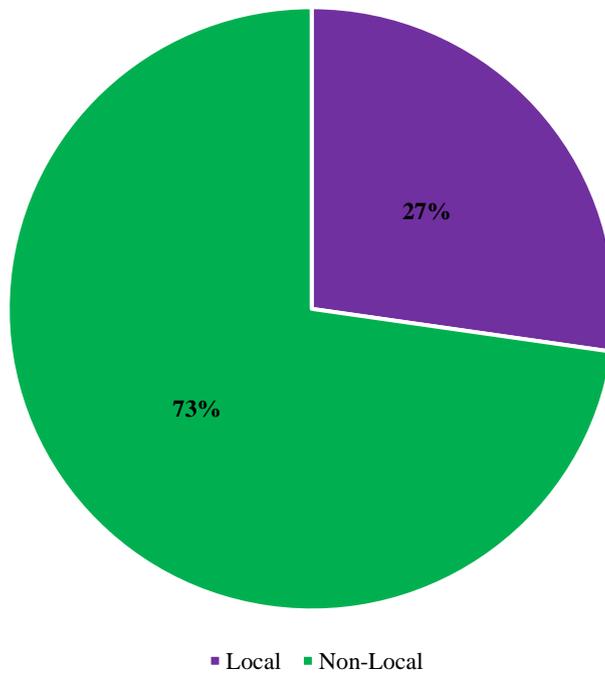

Local vs Non-Local for Undetermined in the Middle Neolithic (N=9)

Local vs Non-Local for Adults in the Middle Neolithic (N=29)

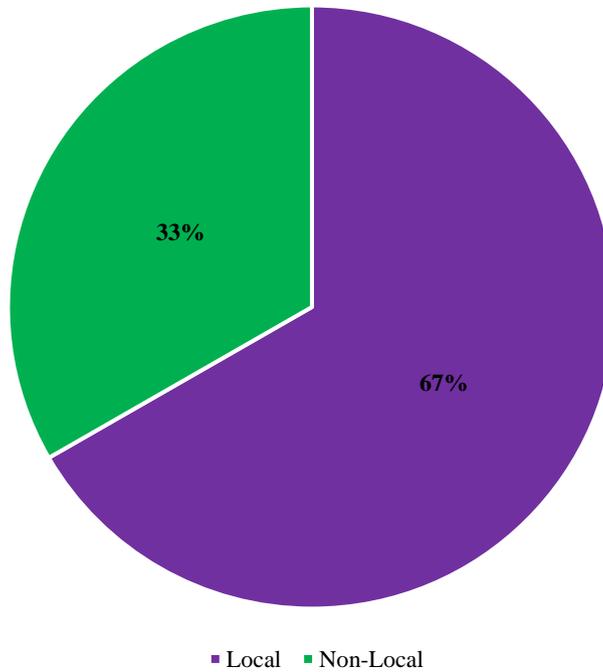

Local vs Non-Local for Nonadults in the Middle Neolithic (N=11)

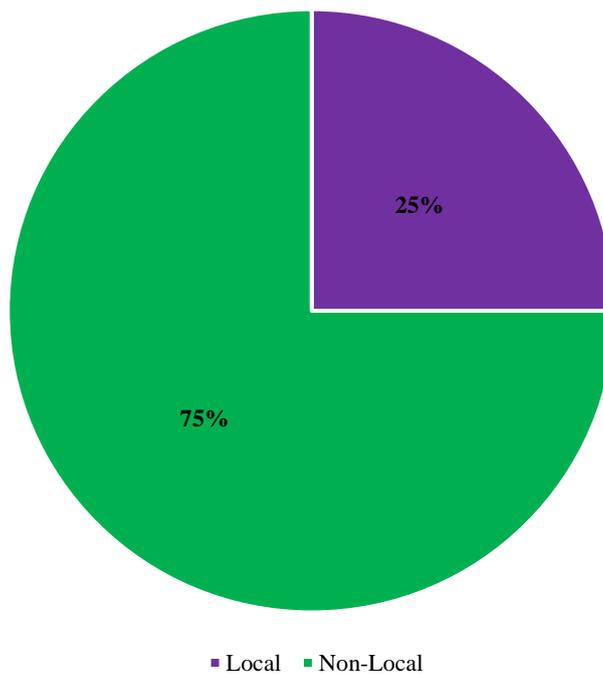

9. Neolithic Regions – Strontium and Oxygen

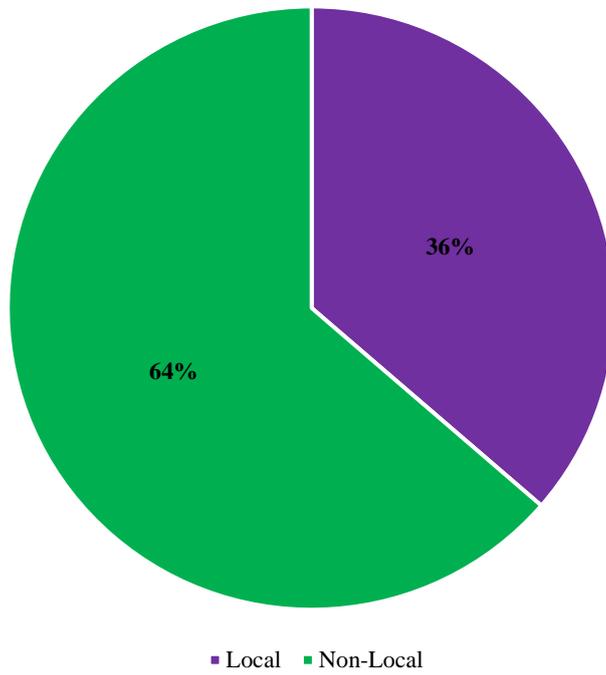

Local vs Non-Local for Males in Central Britain (N=3)

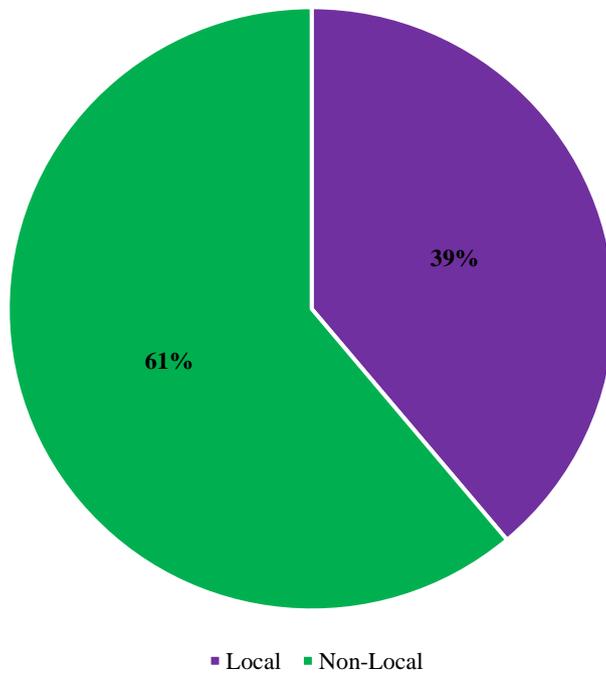

Local vs Non-Local for Females in Central Britain (N=4)

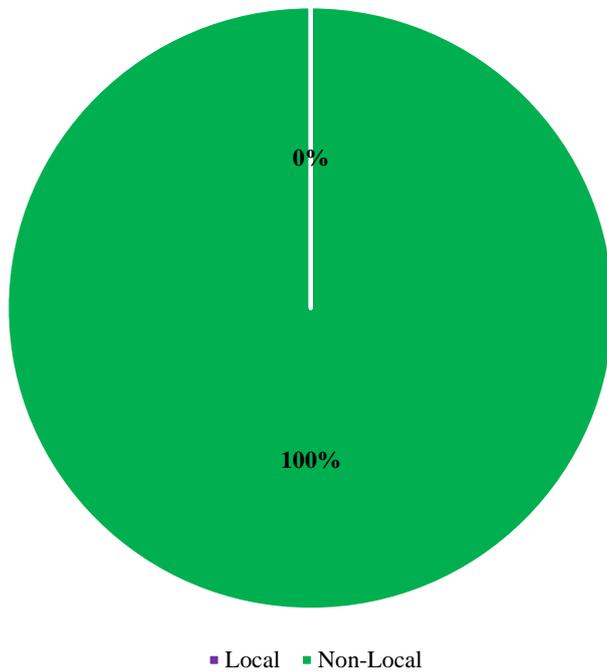

Local vs Non-Local for Undetermined in Central Britain (N=11)

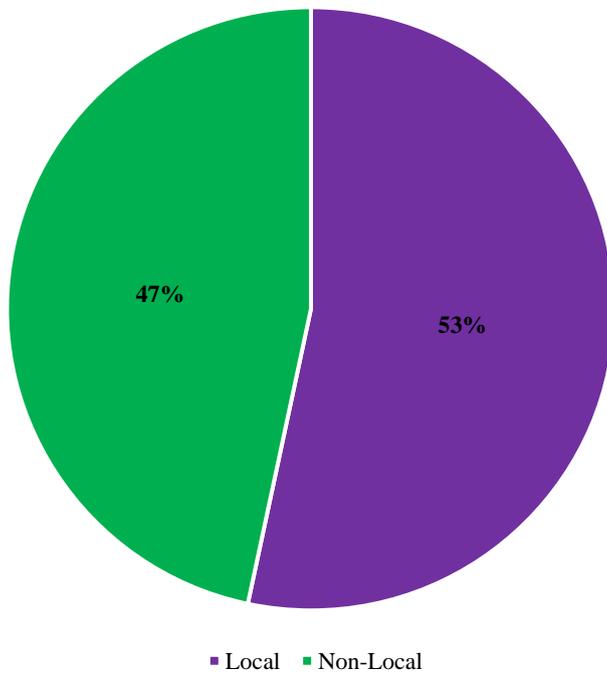

Local vs Non-Local for Adults in Central Britain (N=18)

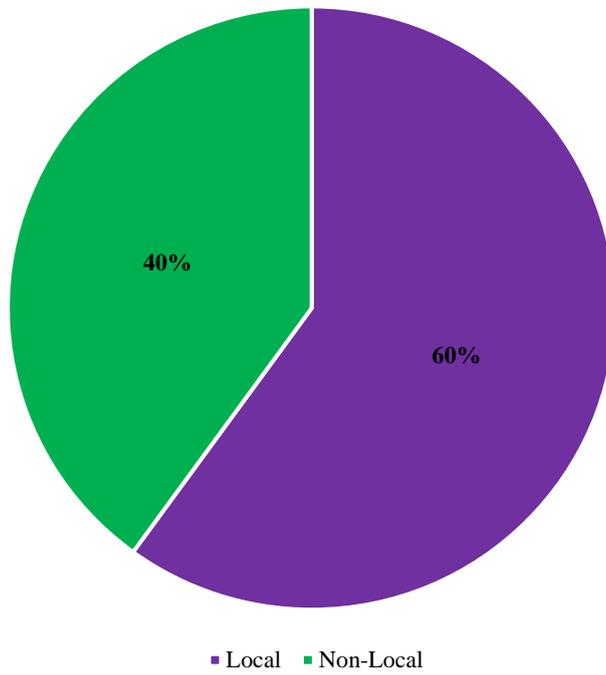

Local vs Non-Local for Nonadults in Central Britain (N=4)

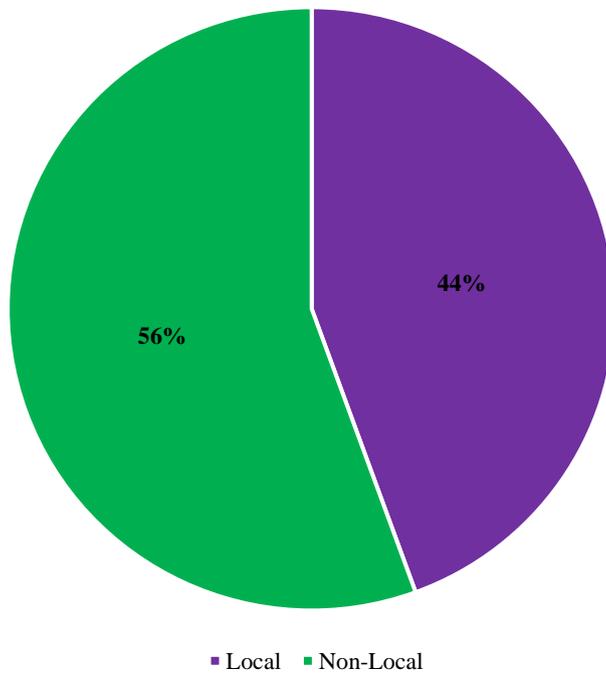

Local vs Non-Local for Males in Southern Britain (N=15)

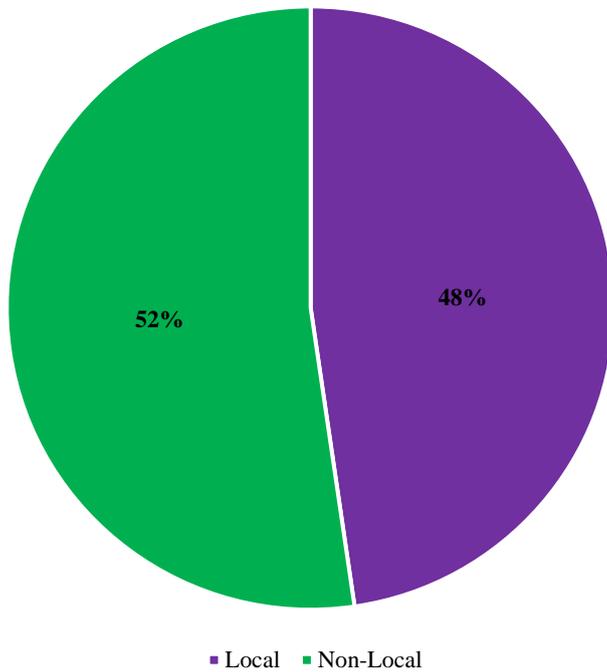

Local vs Non-Local for Females in Southern Britain (N=5)

Local vs Non-Local for Undetermined in Southern Britain (N=45)

Local vs Non-Local for Adults in Southern Britain (N=65)

Local vs Non-Local for Nonadults in Southern Britain (N=34)
