

What do we do with digital technologies?

Appendix 4

*Parven Akhter
Department of Education
University of Sheffield*

What kind of technologies are we using?

Working with South Asian Families

➤ Bangladeshi Family

➤ Indian family

➤ Pakistani Family

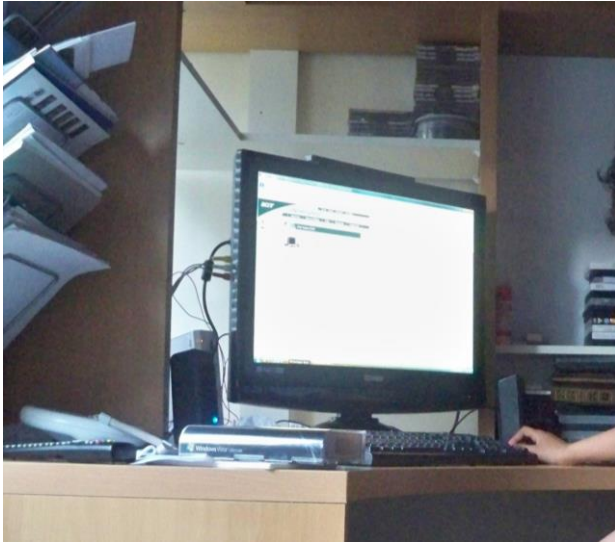

Children's use of digital technologies: Captured in the homes from my recent field work (words taken from participants).

Using key board on the computer screen

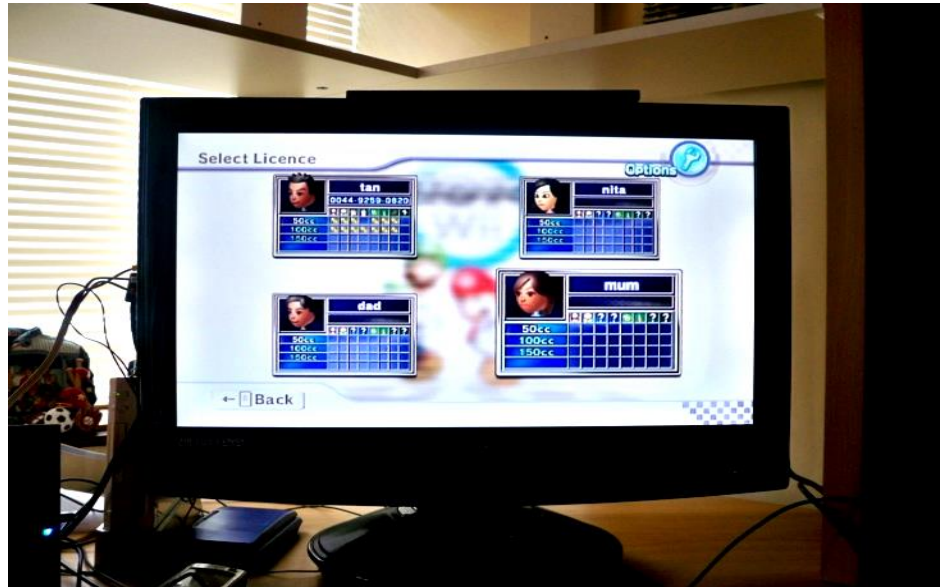

“My handwriting is slow. I can get better marks, if I was allowed to type my descriptive answers.”

Photograph and comment by Kamal*, aged 10

Identity in Wii Fit for family play activities

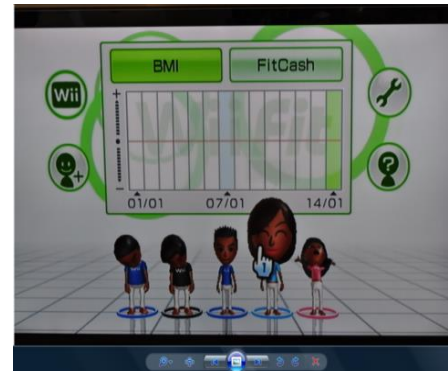

“My family: My mum, dad and me went together at John Lewis and brought Nintendo wii last month. This image is my Mum, Dad, my sister and me. I created images of my family members by using brown colour for every body in the family. I have created their accounts when I got this Nintendo Wii.”
